ANNUAL REPORT

OF THE

Committee on Bath Houses

OF THE

CITY OF NEW BEDFORD
MASSACHUSETTS

For the Season 1935

THE A. E. COFFIN PRESS—PRINTERS
1936

Report of the

Committee on Bath Houses

New Bedford, Mass.,
January 6, 1936.

TO THE CITY COUNCIL:

Gentlemen:—

The Committee on Bath Houses herewith presents a report for the year 1935.

FINANCIAL STATEMENT FOR DECEMBER 1934

Appropriation		$250.00
Expenses:		
Payrolls for December 1934	$147.14	
Telephone, lighting, and supplies	54.44	
Total expenditures December 1934	$201.58	
		$201.58
Unexpended Balance		$48.42

FINANCIAL STATEMENT FOR THE YEAR 1935

Appropriation		$11,000.00
Expenses:		
Advertising and Printing	$ 89.25	
Equipment and Supplies	1,641.79	
Laundry	46.39	
Lighting	82.82	
Telephone	59.40	
Water	140.66	

Repairs and Alterations	448.83	
Bathing Suits	72.00	
Miscellaneous	143.93	
	$2,725.07	
Payrolls	$7,599.13	
		$10,324.20
Unexpended Balance		$ 675.80

COMPARATIVE TABLE

Total Expenses	$10,324.20
Total Receipts	$ 1,491.90
Net cost of operation	$ 8,832.30

This report covers a thirteen month year. Due to legislative enactment, requiring that all municipal fiscal years run with the calendar, it became necessary to harmonize prevailing custom with legal requirements by having a thirteen month year. In the future, the fiscal year will be the twelve months of the calendar year.

An appropriation of $250 was made for expenses of the department in December. Of this sum $201.58 was spent and $48.42 was returned.

For 1935, an appropriation of $11,000 was given the Committee. The largest item was, of course, for payrolls. $7,599.13 was expended for services, an increase of $1,334.82 over the 1934 season. This increase is explained by the larger staff and the longer season of employment.

The children's bath house was open for the full season for the first time. The Committee feels that its advocacy of this building has been more than justified in the tremendous patronage. A man and a woman are in attendance daily from 9 to 5 and one lifeguard is assigned to the waters surrounding the children's bath house and raft. The Committee feels that this measure of security is essential to the comfort of parents and to the Committee which is in charge of the establishment.

The increased beach has required a larger staff to patrol both from the police and the lifeguard positions. The local ERA authorities have been co-operative in assigning a corps of men to clean the beach. If this work should ever be thrown back on the Committee to perform it will require more assistance.

Members of the staff were put to work at an earlier date than usual due to the increased preparations for the season.

A new phase of activity developed this year. With remarkably fine weather during September and October, children discovered a new use of the Bath House property. The pier, smoothly concreted as to surface, and safely walled as to edge, suggested itself as ideal for roller skating and consequently there were between 200 and 300 children skating there after school hours, daily. The Committee was glad to encourage this use of the property, realizing the healthful value of the sport and appreciating the security offered by use of well protected areas. Therefore the reserve police officer was retained through the days when the weather was fine to assure protection.

All of these added phases of activity increase the payroll, but the Committee believes that there is a more than adequate return on the investment.

Receipts dropped $54.80 from the 1934 season. This is due to the fact that fewer persons rent suits and towels. This decreased revenue is compensated for by the lower investment in equipment and the lower laundry costs.

The Committee purchased a B. & K. Inhalator and 2 extra oxygen tanks for first aid use. Each member of the staff has been instructed in the use of the inhalator and the new equipment adds to the efficiency of the department.

New jetties are being built by ERA help and two new rafts were also built by them. One new lifeboat was purchased in 1935 and three more are being built as an ERA project.

Nine flood lights have been purchased and are stored at the Bath Houses ready for installation next year. This will make it possible to use the Bath Houses and the waters during the evening hours.

The season was closed with the usual races on Labor Day afternoon. In the evening, a water pageant was held under the direction of the Red Cross and was enjoyed by thousands of people. The ERA band played a concert during the afternoon and played for dancing on the pier in the evening.

The Wednesday afternoon ERA band concerts were greatly enjoyed and it is hoped that this assignment may be continued in 1936.

The Committee appreciates the excellent service rendered by the staff at the Bath Houses and the splendid executive qualities of the superintendent.

The Committee also wishes to express thanks to the Mayor for his great interest; to Mr. Miner Wilcox, local ERA administrator for his generous co-operation; and to the City Council for the appropriation which made it possible to carry on the year in so efficient a manner.

For the Committee:

JOSEPH HARRISON, Chairman,
ROBERT UPTON,
ALDEI CASAVANT,
BERNARD C. McCABE,
DAVID S. ANDERSON.

December 30, 1935.

To the Committee on Bath Houses:

Gentlemen:

I respectfully submit herewith my report as Superintendent of the Municipal Bath Houses for 1935.

The Bath Houses were opened on May 30th and closed on September 7th.

The number of bathers during each week and the fees received for rental of houses, suits and towels were as set forth in the following schedule:

	Bathers	Fees
Week Ending June 3	900	$ 16.00
June 16	2,500	55.35
June 23	2,350	35.60
June 30	10,300	143.25
July 7	12,200	153.30
July 14	16,800	210.40
July 21	13,100	153.80
July 28	11,000	155.25
August 4	16,800	179.15
August 11	6,400	69.85
August 18	21,000	205.05
August 25	9,300	94.25
September 1 ..	1,785	16.60
September 8 ..	310	4.05
	124,745	$1,491.90

The number of bathers increased more than 10% over the 1934 season. The weather was good for bathing and the attendance indicates how much the public appreciates the Bath Houses.

The children's bath house was operated this year for the first full season. It has proved a fine addition and has relieved the congestion present when adults and children were taken care of in the original building. The children's house is open from 9 A. M. to 5 P. M. and free box service is provided for boys and girls under 14. During these hours a man and a woman are in constant attendance and better oversight is possible than before. 400 new boxes were added this year and canvass dressing rooms were installed in the girls' locker room for the older children.

The beach adjacent to the children's house has steadily improved and is now an excellent one for their use. The raft, placed at a reasonable distance from shore has encouraged children to swim and one lifeguard is assigned to the children so that all measures are taken to insure their safety.

During July and August, the Red Cross conducted swimming classes for children each morning, and thousands availed of this instruction.

Attendance among adults continues to increase and there is also an increased attendance among observers who come to the Bath Houses for fresh air and to enjoy watching the swimmers and divers, some of whom put on an excellent display of plain and fancy diving. The increased patronage has required extra police supervision and this year there has been added a third reserve police officer. This has added to the efficiency of the department and to the comfort of the patrons.

Instruction in junior and senior lifesaving was given by the Red Cross in the evening hours during July and August and there was great interest in these classes.

Each year, fewer patrons rent suits and towels and consequently the receipts from these items decrease. This is, however, offset by the fact that there is no new investment in suits and probably no suits will have to be purchased for several years, from a sanitary stand point, this condition is one to be encouraged. Laundry costs were only $46.79 this year.

The assignment of two attendants and a lifeguard to the children's department together with the added beach frontage made it necessary to increase the staff and there are now employed, during the season, 4 lifeguards, 3 male attendants, 1 utility lifeguard and attendant, 4 female attendants, and 3 reserve police officers. The payrolls amounted to $7,746.27 but this includes a payroll of $147.14 for December, 1934. The net payroll for 1935 was $7,599.13,—$1,334.82 more than in 1934, due to the larger staff and to the fact that two men were retained longer than usual in the fall and a reserve officer was retained until November 15th to take care of the roller skaters.

The exceptionally fine weather in October and early November, combined with the ideal conditions on the pier, which is now protected by a concrete wall, brought forth a renewed interest in roller skating. Approximately 300 persons came daily, after school hours. The reserve officer was retained on this account to provide security for the skaters. This is a new phase of activity but one which brought forth much expressed appreciation from parents who realized that children could indulge in roller skating in greater safety at the Bath Houses than in the streets where traffic makes such exercise hazardous.

The efficiency of the department was increased by the purchase of one B. & K. Inhalator and 2 extra oxygen tanks for use in case of accident. The staff were given instruction in the use of the inhalator and this new equipment, combined with the excellent first aid room, has brought the standard of security to a very high level. A new life-boat was also added.

The benefit of the many improvements achieved in 1934 were available for use this year and have been appreciated by the staff and the patrons. Of particular merit are the outside showers which permit persons coming to the Bath Houses in their bathing suits to take showers before going home without having to enter the administration building.

During the year many improvements were provided by ERA men and material. Two new rafts were built, and another float stage was given to the Bath Houses by the Committee on Wharves. All these are of especial benefit as more and more people swim and dive and it is necessary to provide facilities for this phase of bathing.

The ERA band concerts which came weekly were also greatly enjoyed and provided an added attraction for those people who are observers rather than participants in water sports.

All summer the ERA workers have cleaned the beach and have extended the work south to the screen house, clearing out the rocks, and north from the Bath Houses to Woodlawn Street so that there is a stretch of beach over a half mile long.

New jetties have been built and those not finished last year were pointed up. These are holding the sand within the limits of the jetties so that the beach is becoming one of the best in this section.

Three lifeboats are being built by ERA labor while the material was paid for from Bath House funds.

The nine flood lights bought by the Committee have not yet been installed.

The administration building has been given two coats of concrete water proof paint and the usual and incidental repairs and upkeep have been taken care of.

On Labor Day, the water sports were run off and some excellent swimming and diving was shown. A crowd of 15,000 people took advantage of the excellent weather and enjoyed the races and the band concert provided during the afternoon. In the early evening, a water pageant was put on by the Red Cross, Commodore Longfellow directing. It depicted the mythical episodes of Father Neptune and his host of bathing beauties. Flood lights lighted the rafts which were tied together to form a stage, and the Forestry Department Co-operated in furnishing trees which simulated a forest. The New Bedford Gas & Edison Light Company furnished the lighting equipment for the play. Thousands of people witnessed this pageant and later remained to enjoy dancing to the music of the ERA band.

The year was a pleasant and successful one and I take this opportunity of thanking all those who co-operated in this work particularly Mayor Ashley, Mr. Miner Wilcox, the members of the Bath House Committee and all the employed members of the staff.

Respectfully submitted,

WILLIAM E. FOSTER,
Superintendent Municipal Bath Houses.

In Board of Aldermen.

January 9, 1936.

Received, placed on file and sent down for concurrence.

RODOLPHUS A. SWAN,
City Clerk

In Common Council.

January 9, 1936.

Concurred.

RUTH G. HILTON,
Clerk.

ANNUAL REPORT

OF THE

SUPERINTENDENT OF BUILDINGS

AND

INSPECTOR OF BUILDINGS

CITY OF NEW BEDFORD, MASS.

FOR THE YEAR 1935

THE A. E. COFFIN PRESS—PRINTERS
NEW BEDFORD, MASS.
1936

BUILDING STATISTICS
FOR THE YEAR 1935

The cost of building operations for 1935 was $356,675.00. Number of permits granted was 443.

The cost of building operations for 1935 shows a falling off of approximately $84,000 as compared with that of 1934, which is largely due to the fact that several large construction jobs were started during that year, including the Duff Building, My Bread Bakery, Revere Copper & Brass, Inc., addition, Old Dartmouth Whaling Museum, Continental Wood Screw Co.'s addition, and addition to St. Luke's Hospital,—the whole amounting to more than $200,000.

The largest construction job in 1935 was the addition and alterations to Dawson's Brewery, Inc., followed by S. S. Kresge & Co.'s new store and alterations, the Giusti Baking Co.'s addition and alterations, and the remodelling of the M. J. Leahy Co. building, Pleasant Street.

Only one dwelling house permit was issued during the year,—a one-family dwelling on Pine Grove Street.

Permits were issued for 37 garages and 5 filling stations.

SUMMARY OF BUILDING OPERATIONS FOR 1935

	Permits	Cost
New Dwellings	1	$ 5,600.
New Buildings and Additions for Industrial Purposes	7	121,450.
Buildings for Religious Purposes	1	17,000.
Dairy Barn	1	2,000.
New Buildings and Alterations for Store and Office Purposes	7	59,650.
Garages	37	13,225.
Filling Stations	5	4,500.
Additions and Alterations to Dwellings	150	63,125.
Alterations to Buildings Other Than Dwellings	100	55,975.
Miscellaneous	134	14,150.
Totals	443	$356,675.

During the year 1934,—494 permits were granted at a cost of $440,850.

The outstanding permits granted during the year were for Dawson's Brewery Inc., additions and alterations; Continental Baking Co., alterations; alterations to the N. B. Rayon Co. plant, Belleville Ave.; alterations to The Trading Post, Coggeshall Street; addition to office building of Revere Copper & Brass, Inc., No. Front Street; addition to Home Washing Co., Myrtle St.; addition to the N. B. Boiler & Machine Co. plant, Commercial Street; alterations to J. G. McCrory Co.'s store, Acushnet Ave.; Giusti Baking Co., addition and alterations, Purchase & Hazard Streets; addition to the S. S. Kresge Co. building, Purchase and William Streets; alterations to the M. J. Leahy Co. store building, Pleasant Street; New Greek Church edifice, Ashley Blvd. and Coggeshall Street; addition to warehouse of Greene & Wood Inc., Pine Street.

BUILDINGS TAKEN DOWN DURING THE YEAR

One hundred seventeen permits were granted during the year for the demolition of buildings of all descriptions.

Included in this list were 58 dwellings containing 132 tenements. Ten of these dwellings contained stores on the first floor. Twelve one-story store buildings were taken down.

Five permits were granted for the demolition of storehouses and one mill, including those for the Potomska Corp.; the Wamsutta Mills Cotton Shed, North Front St.; the old Coffin Bros. box factory at the foot of Middle St., now owned by the Union Street Railway Co.; buildings at the plant of Greene & Wood, Inc., Pine St. Two churches were razed,—the Pleasant Street M. E. Church at the corner of Pleasant and Sycamore Sts., which was badly damaged by fire; and the Greek Orthodox Church, corner of Ashley Blvd. and Coggeshall St., to make way for the new church edifice now under construction.

Other structures taken down included a section of the engine room at the Grinnell Mfg. Co.; the old ferry slip office at the steamboat wharf, foot of Union St.; a group of old buildings on Purchase and William Sts., to make way for the new Kresge store; top story of a building at the corner of Pleasant St. and Mechanics Lane, owned by Max Levy and others; a large water tower on the Thomas Hersom & Co. property at the foot of Howard Ave.

Thirty-six permits were granted to raze barns, sheds and other old structures.

The outstanding demolition permits of the year were for the razing of the Potomska Mills, a W.P.A. project; and the former Benjamin H. Anthony homestead on Bedford and Waverly Sts.

SIGNS

During the year, 216 sign and 9 banner applications were forwarded to this department by the City Clerk for inspection and approval as to their proper location and structural sufficiency before a permit for permanent maintenance should be granted by the Board of Aldermen. Two of this number were given leave to withdraw by the Board.

During 1934, 231 applications were acted upon in the same manner and three given leave to withdraw.

ELEVATOR INSPECTION

A total of 215 inspections was made of the various types of elevators throughout the city during the year.

Notices were sent to several of the manufacturing corporations calling attention to the necessity for repairs, which, in each case, were satisfactorily adjusted.

Two new elevators were installed and three removed during the year.

Seventy operators' licenses were renewed and 21 new applicants were examined and granted licenses.

LODGING HOUSE INSPECTION

During the month of April, 33 hotels and lodging houses, containing 857 rooms were inspected by this department in compliance with State Laws governing this type of building, and a written report of each inspection forwarded to the State Commissioner of Public Safety.

BOARD OF APPEALS

During the year, 20 appeals from the decision of the Inspector of Buildings were forwarded to the Board of Appeals for decision.

Eleven of these appeals were granted and 9 given leave to withdraw.

Summary of Petitions Acted Upon

Petitions for variance granted outright	3
Petitions for variance granted with conditions	3
Petitions for variance and consent granted	1
Petitions for variance granted to non-conforming buildings	2
Petitions for variance granted to non-conforming buildings with conditions	2
Dismissed	9
Total	20

Since the adoption of the Zoning Ordinances by the City Council, the following number of cases has been acted upon by the Board of Appeals:

1926	73
1927	95
1928	49
1929	48
1930	27
1931	30
1932	19
1933	12
1934	18
1935	20
Total	391

ADDITION TO SENIOR HIGH SCHOOL

This building, which was described in my report of 1934, was completed and accepted by the City Property Committee on August 7, 1935, with the provision that certain corrective work should be finished before the customary 61 days prior to final payment of retained 15% should elapse. The final payment was made on October 8, 1935.

The cost of the building was as follows:

General contract, including heating, plumbing and electrical work	$389,074.51
Furnishings and equipment (contracted for by the School Department)	65,442.75
Miscellaneous office expenses, inspection, etc.	20,073.10
Total Cost	$474,590.36

The general contractor for the work was the Matthew Cummings Co., Inc., of Boston. Plans and specifications were prepared by Brown & Poole, Architects, of this city.

FEDERAL PROJECTS

During the entire year of 1935 this department, in addition to the regular departmental duties, has been engaged the greater part of the time in planning and supervising many E.R.A. projects as hereinafter listed.

The department has made every endeavor to fully cooperate with the Local Administrator in fulfilling all the requirements necessary to the successful operation and completion of the numerous projects.

Since the middle of December, 1935, when activities of the E.R.A. terminated, the following projects were allotted under the W.P.A. plan and are in operation: Wharfinger's Building, Pier No. 3; Municipal Building Repairs; Potomska Mill Demolition; West End Recreation Center; Rural Cemetery Wall; Stone Pier and Beach, E. Rodney French Blvd.; Repairs to Fire Stations; Vocational School Gymnasium; and Draftsman and Record Clerk.

List of E.R.A. Projects follows:

Proj. No.	Project	Architect	Federal Exp.	City Exp.	Total	Completed
B20—86	Acushnet Mill Demolition		$5,700.85	$1,248.71	$6,949.56	Yes

Clerk of the Cemetery Board.

BOARD OF CEMETERY COMMISSIONERS

Beyond its financial receipts and disbursements, the Cemetery Board, in its annual report has sought by a few suggestions to lot owners to further the work of progress and improvement by an appeal for their cooperation.

This effort by the board, together with the opportunities which lay at hand to improve their lots is bearing fruit, the number of lots in annual care being only diminished by their transfer into perpetual care.

The untiring efforts of the Superintendent, Mr. Sidney B. Demoranville, to constantly improve the general appearance of the cemeteries and to conduct an uninterrupted progress in the extension of new work have contributed in a marked degree to their parklike appearance.

The administration, deeming it advisable to curtail the expenditures in all its departments, made no exceptions of the cemeteries as will be seen by reference to the annual appropriation made to this department. That amount, under judicious management to keep expenditures within the amount appropriated, barely covers the actual cost of operation and maintenance of the several cemeteries, particularly as the cost of the annual and perpetual care lots has to be met from this appropriation.

For the past two years, a C. W. A. and E. R. A. project has been in progress in cleaning wild land in Rural and Pine Grove Cemeteries by removing all stones and other obstructions and digging over land the depth required and grading the same. While the expense of this is largely provided by federal appropriation, there are many minor demands required from the department that takes a considerable sum from the department appropriation.

By reason of cleaning and opening up the new land in Rural Cemetery, it lays open that section of the cemetery without an enclosure. This, however, has been provided for, thru a P. W. A. project in building a five foot stone wall from Matthew street, north along the line of Rockdale avenue.

950 men are engaged on these projects.

The income of this department consists of receipts for labor on perpetual and annual care lots and sale of lots, the aggregate of which has in some previous years met the full amount of the annual appropriation, thereby showing this department as self supporting. However, by reason of the depression and reduced interest on deposits and other unusual demands, the income to this department has been proportionately reduced, so that at present it is necessary to call for in our annual appropriation, an additional amount in excess of our receipts to meet the yearly requirements in operating this department efficiently.

Because of the unusual dry period during the summer of this and last year, the pond which has always been an attractive feature in Rural Cemetery was absolutely dry. As there is no natural supply of water to this pond, it is dependent upon surface water and seepage for its supply.

The policing of the grounds this season has been productive of good results. Very little, if any, vandalism has occurred and the cemeteries have been kept free from unwarranted trespassing. The board is satisfied that it will be necessary to provide for this feature annually to insure proper protection to the grounds.

It is our pleasant duty to give expression to the appreciation of the owners of lots of the efficient and tactful care in directing the service of this department by the Superintendent, Mr. Sidney B. Demoranville.

The board also wishes to acknowledge the cooperation of the City Engineer, Mr. George H. Nye, who has cheerfully responded to the requirements of the cemetery officials.

Respectfully submitted,

W. M. HIGHAM,
Chairman.
JOHN G. NICHOLSON,

CHARLES H. VINAL,
Secretary.

SUPERINTENDENT'S REPORT

To the Board of Cemetery Commissioners.

Gentlemen:—

I herewith submit my report of the work accomplished under my supervision during the year 1935.

The operations of this department show a somewhat parallel feature to that of the previous season, in that the entire service has followed a systemitized regulation, that all sections of the grounds received their required attention, that all perpetual and annual care lots received the full attention their contracts call for, while the general work on avenues, park lands, and public grounds has contributed to the attractiveness of the cemeteries.

In the section of Oak Grove Cemetery on the south side of Parker street, a new rubble faced wall has been built this season, replacing the picket fence on both the east and west enclosure to these grounds.

One hundred and fifty feet of cemetery land formerly outside was taken into the grounds on the west. The stones were removed and the land filled and graded and this supplies an attractive addition to this section of the cemetery. It is further desirable that this wall be extended along the Smith street border, replacing the picket fence there.

The large stone pillars at the Smith street entrance have been straightened and we are now able to close the heavy iron gates which were supported by them. The above construction was a federal project.

In Pine Grove Cemetery, 244,728 square feet of wild area has been cleared of all obstructions, dug over the depth of a grave, graded and seeded, and presents an unlimited area for the sale of lots in this cemetery.

The federal project in Rural Cemetery which has been under development and construction for the past two years, first under the C. W. A., then the E. R. A., and now working under the W. P. A. presents a far greater problem in its character, covering an area of 20 acres of wild land. It was heavily wooded which first had to be removed. The land is of an extremely wild nature, heavily imbedded with roots, rock and boulders, causing very slow progress in cleaning it up.

More than 900 men are now employed on this project. These are separated into nine groups, with a foreman to each group. Six heavy trucks and ten pairs of horses are required, and a compressor air drill is in constant use to facilitate the drilling for blasting.

Five temporary buildings have been built. One of these is to be for a nurse's quarters as it is found necessary to have one on the grounds for first aid in accidents. Other buildings are quarters for timekeepers, paymasters, toilets, and the storage of the large number of tools required on this project.

125,144 square feet of this area has been finished, graded, and seeded, the rest of this area is still in the rough. One main avenue and three cross avenues have been dug over, however, and filled in with stone basing. All of this work is under the direction of Mr. Edgar B. Crosby, foreman in chief.

A five foot stone faced wall is now being constructed along the line of Rockdale avenue from Matthew street to Winterville road. This will supply a much needed enclosure, and is a federal project entirely separate from the one working on the wild land area.

The following is a summary of the work accomplished during the season.

SUMMARY OF WORK DONE IN 1935

	Rural	Oak Grove	Pine Grove
Sq. ft. land seeded			76,100
Sq. ft. land rough graded		525	12,200
Sq. ft. land graded			13,675
Sq. ft. sod laid			297
Lineal ft. borders trimmed	406	575	12,100
Foundations for tablets and markers	84	46	14
Foundations for monuments	18	11	9
Foundations re-built	3	1	
Corner posts in lot		8	6
Trees set out			6
Shrubs set out			3
Flower and shrub beds	26	42	13
Trees removed	7	6	1
Trees trimmed and pruned	14	35	43
Shrubs trimmed and pruned	109	210	537
Shrubs removed	5	3	9
Neglected graves fitted	7	28	26
Graves fitted	122	98	9
Graves fitted in Public Ground	81	10	35
Headstones fitted	21	2	
Neglected headstones fitted	42	7	
Lots fitted	4	1	
Bodies dis-interred in 1935	1	1	6
Interments made in lots, 1935	198	134	33
Interments made in graves, 1935			16
Interments made in Public Ground, 1935			41
Interments made in Soldiers' and Sailors' Lot	2		6
Total interments, 1935	200	134	96
Bodies entombed, 1935	2	2	
Lots sold in 1935	16	2	7
Graves sold in 1935			15
Prepared lots unsold	370	86	479
Value of lots unsold	$93,999	$27,723	$147,625
Graves unsold			74
Value of graves unsold			$2,590
Number of stones cleaned	532	143	
Number of monuments cleaned	26	10	
Number of corner posts cleaned		8	
Brick graves built	14	8	2
Lot numbers made			528
Corner bounds set			198
Grave markers set			32
Lot markers set			68
Soldiers markers set up	6		
Soldiers graves fitted			2
Lots in annual care	330	258	78

Respectfully submitted,
SIDNEY B. DEMORANVILLE,
Superintendent of Cemeteries.

PERPETUAL CARE

The ever-growing popularity of the feature of perpetual care for lots so strongly advocated by the board is becoming more apparent each year by the increasing deposits placed by lot owners for this purpose. With this object in view, whole sections are being plotted with the perpetual care amount attached to the price of the lots, and it is being generally accepted by would-be purchasers, and the results are shown in the neat appearance of individual lots which so largely contributes to the general good appearance of the whole cemetery.

Number of lots placed in perpetual care 1935		Amount deposited in perpetual care 1935	
Rural	31	Rural	$7,025
Oak Grove	11	Oak Grove	1,825
Pine Grove	11	Pine Grove	1,375
Friends	1	Friends	350
	54		$10,575

	Total number of lots in perpetual care thru Dec. 31, 1935	Total perpetual care amount thru Dec. 31 1935
Rural	1,525	$232,040.86
Oak Grove	1,192	164,926.30
Pine Grove	207	25,304.87
St. Mary's	84	9,400.00
Peckham West	42	7,240.00
St. John's	49	6,025.00
Cong. Church	23	3,000.00
Friends	32	5,010.80
Sacred Heart	1	150.00
Griffin Street	1	100.00
Private Cemetery (Braley Road)	1	230.00
	3157	$453,427.83

The above shows the average yearly deposit in perpetual care to be not less than $10,000, since the organization of the Cemetery Board.

REPORT OF CARETAKER OF SOLDIERS' AND SAILORS' GRAVES

New Bedford, Mass.,

January 1, 1936.

To the honorable City Council of the
City of New Bedford.

Gentlemen:—

I herewith submit the following report of the work done on neglected lots and graves where soldiers and sailors are interred as authorized in Chapter 218, Acts of Legislature, 1920:—

	Care of lots and graves	Graves fitted	Lots fitted
Rural	131	6	
Oak Grove	157	6	
Pine Grove	23		
Peckham West	42	3	
Friends	4		
Sacred Heart	38		
Jewish Cemetery	14		
Congregational Church	3		
	392	15	—

The amount appropriated for this work was $1,800.00, and of this amount, $1,746.16 was expended for care of lots and graves; $45.00 for fitting graves; $7.20 for supplies, making a total expenditure of $1,798.36, leaving a balance of $1.64.

Respectfully submitted,

S. B. DEMORANVILLE,

Caretaker of Soldiers' and
Sailors' Graves.

ANNUAL REPORT

Board of Cemetery Commissioners

for the year 1935.

IN BOARD OF ALDERMEN

January 23, 1936.

Received, placed on file and sent down for concurrence.

RODOLPHUS A. SWAN,
City Clerk.

IN COMMON COUNCIL

January 23, 1936.

Concurred.

RUTH G. HILTON,
Clerk.

Attest:
RODOLPHUS A. SWAN,
City Clerk.

THE

Auditor's Annual Report

OF THE

Receipts and Expenditures

OF THE

CITY OF NEW BEDFORD

MASSACHUSETTS

For the Financial Year

1935

THE A. E. COFFIN PRESS—PRINTERS
New Bedford, Mass.
1936

CITY OF NEW BEDFORD

OFFICE OF THE CITY AUDITOR.

To the Honorable City Council:

Chapter 229 of the Acts of the General Court of 1934, enacted that the financial year of all cities of the Commonwealth shall end on December thirty-first and that any period between the end of the financial year 1934 and the calendar year 1934 in any city should be included as a part of the financial year 1935, and made provision for financing the additional period. The financial year of this city for 1934 ended November 30, 1934.

I respectfully submit reports of the receipts and expenditures for the month of December, 1934, and of the receipts and expenditures from January 1, 1935 to January 1, 1936, both for the financial year 1935 of the City of New Bedford, with a statement of the bonded debt and a schedule of the city property.

CHARLES J. McGURK,

City Auditor.

CERTIFICATES.

I certify that I have examined the deposits and securities representing the investments of the sinking funds of the City of New Bedford and the several trust funds in the custody of the commissioners, trustees and treasurer, and find that the same agreed with the reports for the financial year 1935, rendered by said Commissioners, trustees and treasurer to the City Council.

CHARLES J. McGURK,

City Auditor.

We certify that we have examined the foregoing report and statements of the City Auditor and believe the same to be correct.

JOHN A. STITT,
WILLIAM MARTIN,
HARRY LIDER.

Sub-committee of the joint standing committee on finance, appointed to examine the books and accounts of the City Treasurer and City Auditor.

The foregoing report and statements of the City Auditor are approved.

ISAAC DAWSON,
JOHN A. STITT,
ROMEO J. CHAUSSE,
WILLIAM SIMMONS,
ARTHUR J. LEGER,

Committee on Audit.

CITY OF NEW BEDFORD.

IN BOARD OF ALDERMEN,

May 28, 1936.

Received, placed on file, and sent down for concurrence.

RODOLPHUS A. SWAN,
City Clerk.

IN COMMON COUNCIL,

May 28, 1936.

Concurred.

RUTH G. HILTON,
Clerk.

Attest:

RODOLPHUS A. SWAN,
City Clerk.

City of New Bedford,

April 1, 1936.

To the City Council Committee on Finance:

Gentlemen:—The sub-committee on the valuation of City Property reports herewith a list of City Property and its value. The valuation of real estate has been secured from the Board of Assessors, and the valuation of other property has been secured from the officers in charge of the several departments. The entire valuation is believed by your sub-committee to be a fair valuation of the city property.

OSCAR D. KELLEHER,
HENRY S. GORNER,
HARRY LIDER.

LSD.

(Signed) JOHN MORRIS,

City Treasurer.

Report of the Commissioners of the Sinking Funds

City of New Bedford,

January 23, 1936.

To the City Council of the City of New Bedford:

Gentlemen:—At a meeting of the Commissioners of the Sinking Funds of the City of New Bedford held this date

It was Voted:—To adopt the foregoing statements of the Treasurer of the Sinking Funds as the report of the Commissioners of the Sinking Fund of the City of New Bedford required by the Statutes of the Commonwealth of Massachusetts to be made annually to the City Council.

The Commission, in addition, are pleased to report that the securities in the Sinking Fund of your City are all paying their interest and the market value largely exceeds the par value or face value of the bonds held.

Your commission believe that this Sinking Fund is in about the best condition of any in the State and that, with reasonable handling in the future, bids fair to return to the City at its expiration of 1957, a surplus of from half a million to a million dollars.

Yours respectfully,

(Signed) CHARLES S. KELLEY, JR.,
BENJAMIN A. TRIPP,
EDMUND H. LELAND,
Commissioners of the Sinking Funds.

Report of the Treasurer of the Sinking Funds

Length of Intercepting Sewer:	
Outfall	0.626 miles
Interceptors	9.188 miles
17 parks and 7 public playgrounds, area	269.21 acres
42 school buildings: Area of ground	74.27 acres
(Includes 2 unused).	

ENGINEER'S REPORT

City of New Bedford,
Engineering Department,
January 1, 1936.

To the City Council of the City of New Bedford:

Gentlemen:— In compliance with section 56 of the city ordinances defining the duties of the City Engineer, I respectfully submit the following report of the expenses and operations of the Engineering Department for the year 1935.

RECEIPTS FOR FISCAL YEAR ENDING DECEMBER 31, 1935

Appropriation		$27,000.00

EXPENDITURES

Salaries and payrolls	$24,513.14	
Local transportation	810.43	
Photography	17.17	
Office furniture and repairs	105.30	
Meteorological instruments	17.37	
Telephone and telegrams	12.80	
Annual reports	46.50	
Drawing supplies	158.37	
Plotting system	138.18	
Blueprint supplies and equipment	134.30	
Printing, stationery, advertising, etc.	222.27	
Public statutes and reference books	30.50	
Traveling expenses, express, postage, etc.	52.62	
Sundries	64.28	
General Instruments for Office and Field	59.15	
Labor not in payroll	53.00	
		$26,435.38
Unexpended balance		564.62

Receipts from sale of blueprints, material and maps paid in to General Revenue	$51.60

Special Appropriation for Month of December 1934		$2,200.00

EXPENDITURES

Salaries and payrolls	$1,901.86	
Photography	1.57	
Office Furniture	146.60	
Telephone and telegrams	.75	
Drawing supplies	13.72	
Blueprint, supplies and equipment	5.45	
Printing, stationery, advertising, etc.	18.00	
Traveling expenses, express, postage, etc.	17.26	
Sundries	4.54	
		$2,109.75
Unexpended balance		$90.25

All the regular work of the Department has been carried on as usual. In addition designs, estimates, plans, lines and grades were furnished for E. R. A. and P. W. A. projects for streets, sewers, parks, cemeteries and other public property, other than buildings and water works, undertaken this year. Inspection was furnished on three P. W. A. projects. Designs, estimates and plans, as well as correspondence, etc., were furnished on five P. W. A. projects.

Lines and grades and inspection were furnished on P. W. A. projects for Highways, Pier 3 and Sea Wall at Popes Island. The cost of this service amounting to $1,942.81 was paid directly from the project fund.

During the years 1934 and 1935, 4812 feet of intercepting sewer has been built in Rodney French Boulevard East with all the necessary control chambers, 1503 feet of 16-inch cast iron force main in Apponagansett Street and a new pumping station at the foot of Apponagansett Street.

The pumping station is arranged similarly to the Howard Avenue Station with two horizontal six inch Gould pumps driven by synchronous motors automatically controlled. One pump is installed and in service, the second will be installed early in 1936.

This station with its contributing sewers removes all the sewage formerly discharged into the Acushnet river from the east side of Clarks Point. The cost of the station and equipment was $24,532.

Respectfully submitted,

GEORGE H. NYE,

City Engineer.

JAMES H. MAHONEY,
Appointed December 31, 1914.

STATION NUMBER FOUR,
WILLIAM S. GATENBY,
Appointed, April 10, 1927.

STATION NUMBER FIVE,
JAMES L. HASKINS,
Appointed July 8, 1924.

STATION NUMBER SIX,
CHARLES E. GREENE,
Appointed April 10, 1927.

STATION NUMBER SEVEN,
EDWARD H. COGGESHALL,
Appointed April 26, 1910.

STATION NUMBER EIGHT,
EDWARD A. POLLOCK,
Appointed March 21, 1923.

STATION NUMBER NINE,
JOSEPH RUMNEY
Appointed March 22, 1931

STATION NUMBER TEN,
FRANK J. NICKLAS,
Appointed February 19, 1924.

STATION NUMBER ELEVEN,
HERBERT H. STONE
Appointed December 19, 1934.

REPORT

December 31, 1935.

Hon. Charles S. Ashley, Mayor.

Dear Sir:

I have the honor to submit, herewith, my thirty-second annual report of the conditions and operations of the fire department for the year 1935.

The department answered 313 Box alarms and 528 Still or Telephone alarms, a total of 841 calls during the year.

There are eleven brick Stations and one frame building in the custody of this department.

The Fire Prevention made 1171 inspections during the year and corrected many fire hazards.

A Zone Training School for firemen of nearby towns has been conducted at our Drill School for a period of ten weeks following our regular drill schedule.

APPARATUS IN COMMISSION

8 Motor Pumping Engines.
4 Electrical Aerial Trucks.
1 City Service Truck.
3 Hose Wagons with Booster Equipment.
1 Foam Chemical.
5 Automobiles for Chief and Assistants.
1 Automobile for Fire Prevention Bureau.
2 Supply Trucks for Repair Force.
1 Supply Truck for Fire Alarm Branch.

APPARATUS IN RESERVE

2 Motor Combination Pumping Engines.
2 Motor Combination Chemical and Hose Carriers.
3 Steam Fire Engines equipped with short towing poles.

MANUAL FORCE

Consists of 191 men.

HOSE

1,900 feet of 3 inch.
18,950 feet of 2½ inch.
950 feet of ¾ inch.
400 feet of 1 inch.
200 feet of ⅝ inch.
99 waterproof covers carried on apparatus.

DEATHS

Daniel O'Neil, Chauffeur, Hose Co. No. 4, joined the department Aug. 1, 1917, died Jan. 30, 1935.

Albert P. Voisine, Ladderman, Ladder Co. No. 4, joined the department Feb. 2, 1920, placed on pension roll Oct. 29, 1931, died April 2, 1935.

Isaac R. Allen, Tillerman, Ladder Co. No. 1, joined the department Feb. 13, 1895, placed on pension roll, Mar. 17, 1922, died May 28, 1935.

Edward McKay, Tillerman, Ladder Co. No. 4, joined the department Dec. 1, 1917, died July 2, 1935.

FATALITIES

The body of David Wainer was found at a fire May 13, 1935, at 334 West High St. and upon examination by Medical Examiner, death was pronounced due to burns.

Respectfully submitted,

EDWARD F. DAHILL,
Chief of Department.

CITY OF NEW BEDFORD.

IN BOARD OF ALDERMEN.

January 23, 1936.

Received, ordered printed in the city documents, and sent down for concurrence.

RODOLPHUS A. SWAN,

City Clerk.

IN COMMON COUNCIL.

January 23, 1936.

Concurred.

RUTH G. HILTON,

Clerk.

Fifty-seventh Annual Report

OF

THE BOARD OF HEALTH

OF THE

City of New Bedford

To the City Council for the Year 1935

NEW BEDFORD, MASS.

1936

Office of the Board of Health,
New Bedford, Mass., Jan. 30, 1936

To His Honor, the Mayor and
Gentlemen of the City Council:

With the presentation of the 57th annual report of the Board of Health, we take pride in informing your honorable body that the city of New Bedford has the enviable record of two consecutive years without a death from diphtheria, a record which is rare in cities with populations in excess of 100,000 inhabitants. In 1934, New Bedford had no deaths from diphtheria and the same is true for the year 1935. The Board feels grateful to the physicians of the city and to all who cooperated in making this excellent showing. Another marked incident of the year just ended is in the fact that there were no cases of typhoid fever during the year.

During the year, the plumbing regulations were revised, going into effect August 1st. Particular stress was placed on the installation of safety valves attached to hot water boilers, calculated to safeguard the occupants of dwelling houses and other places where hot water is constantly used. In furtherance of these regulations, Inspector of Plumbing, Mr. E. G. Parker, gave eleven lectures to the craft in this city, much to his credit. His demonstrations were greatly appreciated by the Board, as well as by manufacturers of safety valves throughout New England and the Middle states, who attended the lectures.

Respectfully submitted,

Joseph R. Glennon,

John M. Salles, M. D.

John M. Kelleher,

Board of Health.

REPORT OF AGENT AND EXECUTIVE OFFICER

New Bedford, Jan. 11, 1936.

To the Board of Health,

Gentlemen:

The year 1935 proved to be very interesting, so far as local health conditions are concerned. It was a year of outstanding records in several instances, and all should feel gratified at the fine showing. For the second time in the city's history, there were no deaths from diphtheria, and for the first time no cases of typhoid fever; another record of note is in the city's infant mortality. The rate was 55.8. Twice in succession the records show no diphtheria deaths and but one death from scarlet fever in each of the last two years. In the past, the records show several years when there were no deaths from typhoid fever, but never before 1935 could it be said that the city had no cases of that disease. A wonderful record for the year, all things considered, and local health officials might well feel proud of the words of commendation which are coming in from those who know what such records mean.

There were 1269 deaths, exclusive of stillbirths, recorded during the year, giving a general mortality rate of 11.53. As there were 86 deaths of non-residents, this brings the adjusted death rate down to 10.75, the actual record of those who abide in New Bedford. During the year 97 children under one year of age died, and as 1738 births were registered in the same period, the infant mortality was 55.8.

The leading causes of death were heart disease 148, cerebral hemorrhage 163, cancer 132, broncho-pneumonia 190, infant deaths (under one year) 97. Pulmonary tuberculosis accounted for 58 deaths, while automobile fatalities were responsible for 13, four of which occurred outside of the city. There were 15 suicides during the year.

In the age group between 60 and 70 years, the records show that 333 died, leading all other groups excepting the group in the early period of life. Between 60 and 70 years of age, females were in the majority by 43, the same being true in the next decade when females were in the lead by 26. Twenty-one is the record for the age group between 90 and 100 years, and here again females were in the lead, there being in this group eight males and 13 females.

The following is the record of deaths and mortality rates since 1889:

Year	Deaths	Rate	Population
1890	775	18.9+	41,000
1891	960	21.8+	*44,000

* Census

THE NEWLY BORN

There was an increase in the number of births reported by midwives during the year 1935, — an increase of eleven for the twelve months. For the several years midwives have fallen far behind in this phase of maternity. A noticeable feature for the year just ended is the fact that for three successive years the number of cases of ophthalmia neonatorum have been seven each year. There was a marked falling off in the number of cases of suppurative conjunctivitis reported for the year.

BIRTHS 1935

	Number of Births	Number reported by Midwives	Visits by O. N. Nurse	Cases of Oph. Neon.	Cases of Supp. Conj.

INFANT MORTALITY

Of the 97 deaths of children in 1935, fifty-seven of the infants failed to survive a month, of which number twenty-eight died within the first 24 hours. The following is the record of deaths under one month since 1926:

Year	Under 1 month	Year	Under 1 month
1927	98	1932	52
1928	96	1933	58
1929	62	1934	70
1930	64	1935	57
1931	90		

The infant mortality rate for the same period follows:

Year	Rate	Year	Rate
1927	66.+	1932	55.5
1928	78.+	1933	55.8+
1929	65.+	1934	62.
1930	53.72	1935	55.8
1931	84.27

T. B. PATIENTS

Of the 201 treated at Sassaquin, 96 were married and 105 single; 12 were discharged improved, 18 apparently arrested, 20 quiescent, 6 unimproved and 25 died. The nativity of the patients treated in the local institution was as follows: New Bedford 109; other cities in the United States 34; Portugal 21; Canada 9, Cape Verde Islands 4; England 12; Poland 5; Ireland 3; Scotland 1; Holland 1; Greece 1 and Russia 1. With the end of 1935 we had but very few patients treated in other towns and cities, the smallest number in fact, in years.

SANITATION

Another year of investigating only complaints of nuisances. It is surprising how few there are of such, as compared with years ago.

FOOD AND PROVISIONS

During the year places where food is prepared and stores where provisions are sold, have been regularly inspected by Dr. Wm. J. O'Connor. He made 584 inspections of places where food is served, and 559 inspections of markets and stores.

WORK OF THE YEAR BY MONTHS

1935	Jan.	Feb.	Mar.	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.

EXPENDITURES FOR THE YEAR ENDING 1935

(13 months)

ADMINISTRATION	$13,502.58
MILK AND FOOD	9,800.20
LABORATORY	1,342.87
PAROCHIAL SCHOOL INSPECTION	4,503.54
T. B. CLINIC	2,752.97
T. B. CARE	114,380.11
INFANT WELFARE	19,059.60
CONTAGIOUS DISEASE	11,539.83
OPHTHALMIA NEONATORUM	2,561.52
ISOLATION HOSPITAL	7,736.08
SMALL-POX HOSPITAL	294.09
SANITATION	5,167.80
VENEREAL DISEASE	8,768.61
DENTAL HYGIENE	117.00
	$201,526.80
GARBAGE DISPOSAL	$26,550.52
GARBAGE COLLECTION	87,750.00

EXPENDITURES—COMMUNICABLE DISEASES

(13 Months)

Tuberculosis:	
Sassaquin Sanatorium	$95,152.16
Other Sanatoria	6,415.00
Home Treatment	1,222.85
Other Cities	2,536.37
St. Luke's Hospital	566.73
Union Hospital	36.86
Sol-E-Mar	4,333.00
Lamp Treatment	1,150.00
T. B. Nurses	2,534.70
Carfares	114.70
Ambulance	213.50
	$114,275.87
Other Diseases:	
Ophthalmia Neonatorum	$2,561.50
St. Luke's Hospital	3,062.78
Isolation Hospital	7,736.08
Venereal Disease	8,768.61
Other Cities	336.97
	$22,465.96

REIMBURSEMENTS

Commonwealth of Mass.—T. B. Subsidy	$22,704.79
Commonwealth of Mass.—T. B.	4,627.50
Commonwealth of Mass.—C. D.	94.95
Town of Fairhaven—C. D.	54.86
Town of Falmouth—T. B.	78.86
Town of Dartmouth—T. B.	112.00
Town of Dartmouth—C. D.	123.86
City of Hudson—T. B.	518.35
Raymond Normandin—T. B.	58.00
James Cook—C. D.	95.00
	$28,468.17

Respectfully submitted,

WM. G. KIRSCHBAUM,

Agent and Executive Officer

Elizabeth E. Sumner,

Chief Clerk

REPORT OF THE DIRECTOR OF FIELD WORK

New Bedford, Mass., March 18, 1936

To the Board of Health:

Gentlemen:

I herewith submit my report for the year ending December 31, 1935.

CHILD WELFARE

Our nurses employed in this work made 32,906 visits. There were 6,675 children under their supervision, of whom 1,393 were new cases. During the year 246 Well Baby Clinics were held, the attendance at the clinics being 7,699. The individual children taken to the clinics numbered 1,595.

The nativity of the mothers who took their children to the clinics is shown by the following table:

New Bedford	466	Nova Scotia	1
Massachusetts	130	Sweden	2
United States	60	Austria	1
Canada	46	Brazil	1
Azores	76	Ireland	2
England	19	Honolulu	1
Greece	3	Italy	2
Poland	7	Syria	2
Portugal	32		

During the year there were 1738 babies born in New Bedford, of whom 97 died under one year of age, giving our city a mortality rate of 55.8. It is interesting to study the statistics which show how brief a life most of the children had who died in their first year.

Deaths under one year for 1935:

Lived less than 1 day	35
Lived between 1 day and 1 week	14
Lived between 1 week and 1 month	5
Lived between 1 month and 2 months	4
Lived between 2 months and 3 months	1
Lived between 3 months and 6 months	29
Lived between 6 months and 12 months	9
Total	97

These statistics show that of the 97 children who died under one year, 35% lived less than one day, and over 50% lived less than one week. It is a fair presumption that these cases were beyond the care that our nurses can give.

COMMUNICABLE DISEASE

Our nurses made 1,191 visits to 790 patients with communicable diseases.

TUBERCULOSIS WORK

The nurses doing follow-up work in Tuberculosis made 3,225 visits. They have under their supervision 1,298 persons of whom 221 are new cases. Our nurses were also in attendance at the three weekly clinics held in the Olympia Building. From the number of advanced cases that come to our attention the conviction is borne in upon us that more intensive work should be done with children and adolescents in order to discover the disease in its incipient stage.

PAROCHIAL SCHOOL WORK

The nurses engaged in this work made 15,794 class room inspections. There were 5,032 eye tests made and the nurses gave 391 Health Talks.

The Medical Inspectors made 2,342 physical examinations and made 3,345 throat examinations.

Accompanying this report is a detailed statement of the year's work.

Respectfully submitted,

W. B. GEOGHEGAN,

Director of Field Work.

REPORT OF PLUMBING INSPECTOR

New Bedford, March 10, 1936

To the Board of Health,

Gentlemen:

Following is the work performed during the year ending December 31, 1935:

Inspections of plumbing, investigations of nuisances and defective plumbing—3,701.

Relief Valves Tested

Vaccuum Valves tested	5
Approved	2
Rejected	3
Pressure Relief Valves tested	4
Approved	1
Rejected	3
Pressure and Temperature Valves tested	17
Approved	8
Rejected	9
Pressure, Temperature and Vacuum Valves tested	23
Approved	6
Rejected	17

On July 5, 1935, the plumbing regulations were revised and went into effect August 1, 1935. Owing to certain sections of the new regulations pertaining to boilers, automatic gas water heaters and relief valves, it was necessary to make several demonstrations of installations to men who would be called upon to install such apparatus.

Eleven demonstrations and lectures were given by me at the New Bedford Vocational School, during the late summer and Fall of the year.

Respectfully submitted,

ERNEST G. PARKER,
Inspector of Plumbing

REPORT OF INSPECTOR OF MILK

New Bedford, March 10, 1936.

To the Board of Health,

Gentlemen:

I herewith submit my report for the year ending December 31, 1935.

Grade "A"	4.30	13.25	7,000
TB. Tested Raw	4.19	13.31	22,000

Respectfully submitted,

ALPHEGE LANDREVILLE,

Inspector of Milk.

REPORT OF INSPECTOR OF MILK, PROVISIONS AND SLAUGHTERING

New Bedford, March 18, 1936.

To the Board of Health,

Gentlemen:

I desire to submit the following report as Inspector of Milk, provisions and slaughtering for the year 1935.

All plants manufacturing carbonated beverages were inspected; several times; all except one complied with new regulations and were given new licenses.

Numerous inspections in markets, stores, bakeries, restaurants, lunch carts, soda fountains, and hotel kitchens were made during the year. Exposure of food was noted in many instances and ordered corrected.

The linguica and sausage plants were inspected on various occasions and found in good condition.

Numerous inspections were made of premises where fowl were stored and slaughtered. Corrections were ordered in many cases.

All cows within the city limits were inspected—also tested with very few reactors being found.

About 150 dog-bites were reported during the year. Dogs were examined and for the third successive year no case of rabies were found.

Respectfully submitted,

WM. J. O'CONNOR, V. M. D.
Inspector

REPORT OF MEDICAL INSPECTOR

New Bedford, Jan. 18, 1936.

To the Board of Health,

Gentlemen:

I herewith submit my report as Medical Inspector and Attending Physician for the department for the year ending December 31, 1935:

Cultures taken for the release and diagnosis of

Diphtheria	48
Scarlet Fever releases	232

Investigated 170 cases, of which 41 were tubercular.

Other cases were	Amobiasis	1
	Varicella	2
	Whooping Cough	11
	Impetigo Contagioso	2
	Poliomyelitis	16
	Gonorrhea	1
	Asthma	1
	Dog-bite	4
	Encephalitis	1
	Scarlet Fever	19
	Diphtheria	3
	Measles	36
	Varicella	5
	Trichinosis	1
	Lobar Pneumonia	10
	Syphilis	1
	Not of a Contagious Nature	15

Treated 23 patients for the department, making 121 calls.

Signed 3 certificates of death, there being no attending physician at time of death.

Took 10 cultures for Typhoid.

Respectfully submitted,

A. N. SENESAC, M. D.,
Medical Inspector.

REPORT OF T. B. CLINIC

New Bedford, Jan. 6, 1936.

To the Board of Health.

Gentlemen:

I herewith submit my annual report as Chief of the T. B. Clinic:

Number Patients Examined	2638
Number Re-examinations	2204
Number of New Pulmonary Cases	97
Number Suspicious Cases	171
Not Tuberculosis	168
T. B. Glands	6
T. B. Bones	0
Hilum Tuberculosis	67
Sanatorium Treatment Advised	75
Home Treatment Advised	0
X-ray Advised	482
Referred to P. H. Nurses	0
Arrested Cases	112

Respectfully submitted,

JAS. F. BREWER, JR., M. D.

Chief of Clinic.

REPORT OF THE VENEREAL DISEASE CLINIC

New Bedford, Jan. 1, 1936.

To the Board of Health,

Gentlemen.

I hereby submit my report as Chief of the Venereal Disease Clinic.

Number of patients examined	929
Number of new patients	379
New admissions Syphilis	86
New admissions Gonorrhea	132
Readmissions	68
Number of patients discharged	
Probably cured	72
With permission	51
Without permission	217
Number of visits for treatment and advice	12301
Number of arsenical treatments	1409
Number of Blood tests	228
Number of smears for Gonococcus	461

Respectfully submitted,

A. H. MANDELL, M. D.

Chief of Clinic.

REPORT OF THE BACTERIOLOGIST

New Bedford, Jan. 1, 1935

To the Board of Health.

Gentlemen:

I herewith submit my report for the year ending December 21, 1935:

Diphtheria:

Whole number of cultures examined	100
Whole number of cultures positive	14
Whole number of cultures negative	85
Whole number of cultures unsatisfactory	1

Tuberculosis Pul:

Whole number of specimens examined	68
Whole number of specimens positive	10
Whole number of specimens negative	54
Whole number of specimens unsatisfactory	4

Gonococcus:

Whole number—office	49

Respectfully submitted,

A. H. MANDELL, M. D.,

Bacteriologist.

REPORT OF PUBLIC VACCINATOR

New Bedford, Feb. 25, 1936.

To the Board of Health.

Gentlemen:

During the year ending December 31, 1935, there were successfully vaccinated by me against smallpox 2411 persons. In addition, there were immunized in the Board of Health office against Diphtheria, 377 children, while 118 who had received their first inocculation in the lower grades of the parochial and public schools finished this course by receiving the second and third inocculations.

Respectfully submitted,

DR. L. K. DORAN,

Public Vaccinator

SENIOR DENTIST'S REPORT

New Bedford, Feb. 25, 1936.

To the Board of Health.

Gentlemen:

The writer begs to report that the equipment located at the New Bedford Woman's Club has been returned in good condition. The same is true of the rest of the property under my care.

Respectfully submitted,

F. J. HOYE, D. M. D.,

Senior Dentist.

REPORT OF OCULIST

New Bedford, Jan. 2, 1936.

To the Board of Health.

Gentlemen:

I herewith submit my report as Oculist for the year ending December 31, 1935:

Total Calls made	657
Suppurative Conjunctivitis	26
Simple Conjunctivitis	85
Ophthalmia Neonatorum	8
Blepharitis	1
No disease	10
Congenital Atresia	5

Respectfully submitted,

A. L. BRUNELLE, M. D.

Oculist.

REPORT OF INSPECTOR OF SLAUGHTERING

New Bedford, Jan. 9, 1936.

To the Board of Health.

Gentlemen:

I herewith submit my annual report for the work performed by me during the year ending December 31, 1935:

INSPECTIONS DURING YEAR

	Cattle	Calves	Hogs	Sheep
January	133	77	61	20

ANNUAL REPORT

New Bedford, January 2, 1936.

To His Honor the Mayor and City Council of the
City of New Bedford:

Sirs:

I respectfully submit my annual report of this department from December 31, 1934 to December 31, 1935.

INSPECTION OF INSIDE WORK

During the year have made 8,475 inspections.

Have issued to the New Bedford Gas & Edison Light Company, 3,357 permits to connect electric services.

Sent out to the contractors and property owners 2,461 reports on defective wiring.

Have issued 2,864 certificates on rough work.

REMOVAL OF OVERHEAD WIRES AND CONSTRUCTION

On January 2, 1935, after a meeting of the Inspector of Wires, City Engineer and Superintendent of Streets, the following letter was sent to the Mayor and Board of Aldermen:

Gentlemen:

The undersigned met on January 16, 1935, in accordance with Section 3, Chapter 335 of the Acts of 1914, and voted to recommend the following streets to you for action in ordering the removal of poles and wires this year:

Meriam St., from Bedford to Moreland Terrace
Stetson St., from Bedford to Moreland Terrace
Ash St., from Bedford to Arnold St.
Moreland Ter., from Ash to Page St.
Borden St., from Bedford to Grove St.
Anthony St., from Bedford to Grove St.
Grove St., from Orchard to Ash St.

Total—5,190 ft.

Yours truly,

(Signed)
WILLIAM P. BRIGGS, Inspector of Wires.
GEORGE H. NYE, City Engineer.
WILLIAM P. HAMMERSLEY, Supt. of Streets.

Amount to be removed each year under the act, 5,280 ft.

City of New Bedford,

In Board of Aldermen.

January 21, 1935.

WHEREAS, under the provisions of Chapter 335 of the Acts of 1914, notice has been given and a hearing has been held by this board, it is hereby

ORDERED, that all telegraph, telephone, electric light, electric motor or power, and all other wires, cables and conductors in and above the hereinafter designated streets, and all poles and structures in said streets used for the support of the same, excepting such structures, poles, cables, wires and conductors as are excepted by said Chapter 335, Acts of 1914, shall be removed within the time named in said chapter, or that said wires, cables or conductors shall be placed, maintained and operated in underground conduits.

Locations for said underground conduits shall be petitioned for in accordance with the provisions of Chapter 335, Acts of 1914, and all acts in addition thereto or amendment thereof.

The streets or parts of streets designated and affected by this order are as follows, to wit:

Meriam St., Bedford to Moreland Ter.
Stetson St., Bedford to Moreland Ter.
Ash St., Bedford to Arnold St.
Moreland Terrace, Ash to Page St.
Borden St., Bedford to Grove St.
Anthony St., Bedford to Grove St.
Grove St., Orchard to Ash St.

Total—5,190 ft.

The City Clerk is hereby directed to serve notice of the adoption of this order upon the owners of all wires, cables or conductors in and above said streets, and all poles and structures in said streets for the support of the same, by mailing to each of said owners, by United States registered letter mail an attested copy of this order.

And the City Clerk is hereby further directed to cause this order to be recorded in the Book of Location Order Records, as provided in Chapter 509, Acts of 1911, and to furnish a copy of this order to the Inspector of Wires, the City Engineer and the Superintendent of Streets of the City of New Bedford.

IN BOARD OF ALDERMEN,

January 21, 1935.
Adopted.
RODOLPHUS A. SWAN, City Clerk.

PRESENTED TO THE MAYOR FOR APPROVAL.

January 22, 1935.
RODOLPHUS A. SWAN, City Clerk.
APPROVED.

January 22, 1935.
CHARLES S. ASHLEY, Mayor.
ATTEST:

(Signed) RODOLPHUS A. SWAN, City Clerk.

OUTSIDE WORK

During the year I have investigated and reported to the Mayor and Board of Aldermen on 59 petitions of wire using companies, involving 186 poles.

POLICE SIGNAL SYSTEM

Two of the signal boxes have been transferred during this year making necessary the construction of 650 feet of new overhead line and the removal of 600 feet of line. Existing line construction has been renewed for a distance of 600 feet. Overhead construction has been replaced on twenty-four new poles.

A survey of all overhead line construction in the city streets was undertaken to determine where wires in or near shade trees. This work was completed in about three weeks. On August second of this year the E. R. A. project of constructing a garage adjoining the present work shop and stock room was started. All stock and repair equipment has subsequently been moved into this building.

All police boxes have been repainted during this year. There has been no new police boxes or auxiliary circuits added to the system this year. There are 91 police boxes and 7 private boxes connected to the patrol desks in Police Stations One and Five.

Respectfully submitted,

WILLIAM P. BRIGGS,

Inspector of Wires.

TRUSTEE'S REPORT

To the Honorable, the City Council of the City of New Bedford, Mass.

The trustees present their eighty-third annual report to the City Council in the Report of the Librarian, which has been adopted by the Board.

Respectfully submitted,

BOARD OF TRUSTEES,

GEORGE H. TRIPP,

Clerk of the Board.

LIBRARIAN'S REPORT

To the Trustees of the Free Public Library:

In writing the Eighty-third Annual Report of the Library I wish to quote from an article by Harold J. Laski, Professor of Political Science in the University of London, England, contained in the "Library Journal" for December 1, 1935. "In the cultural history of our people, the development of the public library occupies a place comparable in importance with the development of our schools. Each has opened to the masses a cultural heritage formerly in large part unknown. Each has had an influence comparable to the achievement of the medieval university. They have contributed, as no other facts, to enlightenment, to rationalism, to the sense of unity which comes to a people aware of the significance of the traditions they have to maintain and to enrich.". . .

THE PURPOSE OF A PUBLIC LIBRARY

"I believe that the purpose of a public library is to make accessible the heritage of culture, in the widest sense of the word, to any who may wish to take advantage of it. The first implication, therefore, of my view is the need to view that heritage as something independent of any special attitude of mind. We are not entitled to narrow its substance because we are socialists or conservatives, Christians or freethinkers, exponents of one philosophy rather than another.". . .

"Adequate publicity would do much to increase the public we serve. But with what are we to serve them? Roughly, I think readers are divided into four groups: (1) there are those who read as a way of occupying their leisure; (2) there are those who read for self-development; (3) there are those who read to acquire some specific information needed occasionally or for a limited and immediate purpose; (4) there are those who use the public library much as the scholar uses the British Museum. We need adequately to serve each of these groups."

Leisure Group

"There are those who decry the energy spent by librarians on the first group in my list. So many of them have the same average outlook as the audience for whom Hollywood caters. They take books as drugs; they use them as a way to escape from the penalties of a monotonous existence. They do not really care for the public library; as their patronage of the new "twopenny" libraries shows. Energy spent on them is widely held to be energy lost. I fear that I do not share this view. In any case, readers in this group are also God's creatures; they are entitled to all the help and consideration we can offer. The way to educate the public taste from its not wholly attractive standards is not by neglect, but by sympathy."

The Contents of the New Bedford Library

Our library contains 200,000 books; we subscribe, or receive by gift, 388 magazines and 40 newspapers. The importance of periodical literature is the fact that especially in scientific matters, and questions of current interest, the latest and most authoritative news is obtained from the reputable magazines.

Professor J. B. S. Haldane declared himself not proud of popular books on science, and made the statement that he would be surprised if the librarian to whom he was talking had in his library the only real good book he had written, "Enzymes." He stated, "If you haven't got it, don't buy it now, because it is completely out-of-date." The book was published in 1930.

The library also contains about 73,000 pictures, a great majority of which are available for circulation. The circulation of such pictures through the Art Room and the Juvenile Room is about 38,000.

The aim of a free public library is well expressed in the sentiment, "Something of everything, and everything of something." The "something of everything," means that all controversial subjects should have both sides represented among our books, and all of the subjects which are classified in the library by the conventional numbers arranged from "0" to "999" and which cover practically the whole range of possible subjects, should be adequately represented in a large library, while special subjects—as in our own case, textiles, whaling industry, and biography—should have an extremely large proportion of typical books in these subjects.

The Library of Congress has recently engaged in a method of largely increasing the use of books for the blind by inaugurating a service by which talking books for the blind and the machines for doing the talking will be available for the use of public libraries. These are to be loaned by the Library of Congress.

One of the most useful rooms in the library is the Information Department and Reference Room where questions are presented and usually answered, these questions embracing a great variety of subjects.

A quotation from the Report of the Haverhill Public Library for 1934 follows. "People come to books to help them solve a hundred kinds of problems. For things of the spirit, too—to ease their weary heads—to help them cling to a clear, wholesome viewpoint—to give them, through the relaxation of literature or well-made story, a period of pleasant mental exercise, which will help them tackle their problems, rested and vigorous again."

Questions on genealogical matters, many of which come from all parts of the country, are turned over to the Genealogical Department, and usually answers can be obtained from our large collection of such books.

Reading Room

In Ingraham Hall there is a large collection of books arranged on the shelves in different classifications. Books can be read in the room, and also can be taken out by having them charged at the desk. It is interesting, and rather encouraging, sometimes, to see what books have been taken out. In examining the charging slips in the back of the books, sometimes a book which one would hardly think would interest anybody has been taken out a number of times, showing a wide range of interest.

As has been stated before, the library building centrally located as it is, has become a civic center. As a proof of this there were 757 meetings, an average of more than two a day held in this building. These meetings cover a wide variety of interest, committee meetings, educational and literary meetings, etc.

While in Massachusetts for a number of years every town and village has been provided with library facilities, it is startling to realize that there are 45,000,000 people in the United States, or 37% of the population without library service. In fact, 74% of the rural districts are without access to libraries, and 25% of counties are absolutely without such provision. There are two states which spend only two cents per capita for libraries. These items are quoted from an article in "Rural America." In order to meet this demand for wider library facilities, enthusiastic persons have urged that the United States Government be called upon to supply $100,000,000 a year for spreading the advantages of public libraries over the benighted sections which do not have opportunities that libraries afford, but there has been strong objection to calling on the Government, as if money could be had from government sources without question, "shaking the plum tree," realizing that every dollar spent by the Government comes directly, or indirectly, from taxation. It has been felt by a large number of librarians that it is unfair to add to the burden of government by asking for this extra amount, and there is the danger of calling on the government to interfere with local administration of the libraries, which would follow large expenditures of funds.

The pamphlet material that the library owns is very extensive and is all catalogued. The Reference Room is continually adding to this pamphlet material, covering a great variety of subjects, for example, travel pamphlets, scientific advertising matter, such as air conditioning, etc., careers, aviation, the numerous pamphlets of the Agricultural Department, cooking, etc.

In the Reference Room there are extensive catalogues giving a key to important articles appearing in English and American periodicals for over 100 years. This service is brought up-to-date.

The hospital service at St. Luke's is worthy of mention. During the year 7707 books were circulated among the patients who look eagerly forward for the semi-weekly visit of the library attendant.

The collection of pictures, books, and periodicals in the Art Room is very large. Few libraries of the size of ours have such valuable collections as are contained in this room.

Two of the government agencies have sent young women who have given valuable assistance in repairing books and arranging manuscripts, carrying out the work that was begun last year.

By the removal of the police service from the West Branch Building, opportunity was given for changes and repairs on the lower floor, so during the past few months a room has been opened for a Reading Room for that section of the city. The books are to be read and circulated from the Branch Library on the second floor, but the Reading Room on the lower floor does not circulate magazines, but is open for reading periodicals and newspapers.

These new accommodations have been greatly appreciated by the public, and bid fair to be a welcome feature adding to the resources of the present well-managed branch.

The work at the North Branch, despite the unfortunate location which is a long distance from the business center of the North End, is carried on successfully.

The South Branch is the only branch which has a modern building adapted to library purposes, and the opportunity for good work is duly appreciated. The attendants in charge are zealous, enthusiastic, and able in carrying on the duties which devolve upon them. One of the features is the use of Story Hours which have been given periodically; during the time from January through May these Story Hours are given three times a week, and from September through December, twice a week, making in all 100 different Story Hours through the year. The usual attendance is from twenty-five to forty. The young people in that Branch are very enthusiastic over these Story Hours, and it is certainly work which is helpful in stimulating their interest in the children's books. Their enthusiasm is reflected in the intense delight that they take in Book Weeks and the Christmas entertainments which are carefully prepared.

The Library Book Talks which begin in January and are continued for three months were carried on as usual during 1935, thirteen of these talks being given by volunteer speakers who have generously responded to our invitation.

The main desk during the summer season has been lavishly supplied by flowers from the gardens of three employees of the library, Minnie St. John, Mary Almeida, and Fred Senft, and this service is very greatly appreciated.

It has been noted in Ingraham Hall that compared with the circulation of fiction—although, of course, the fiction circulation is much larger,—there is an increase in the more serious books, the so-called non-fiction.

The Juvenile Department has carried on as usual, with success in meeting the wants of the younger readers. The young women in charge of that room are to be commended for their untiring zeal and enterprise. Their Book Week and Christmas entertainments give a great deal of delight to the young children, and provoke commendation from those of older years who take pleasure in the exhibition.

In accordance with our usual custom we have met requests for books for the C. C. C. Camps, having also supplied a Y. M. C. A. Camp and Lakecroft Camp in New Hampshire with books.

Fewer books than usual have been purchased which largely accounts for somewhat smaller circulation. This is common over the country at large, one of the Metropolitan districts showing a decrease of a million. This falling off is due to a variety of causes, largely because funds are not sufficient to meet the ever increasing demand for books.

The janitor service has functioned well.

I would speak in special commendation of the work of the library staff who have fully cooperated in making the year a successful one.

Respectfully submitted,

GEORGE H. TRIPP,

Librarian.

PLANNING BOARD REPORT

City of New Bedford,
January 1, 1936.

To the City Council of the City of New Bedford.

Gentlemen:

In compliance with the General Laws, Chapter 41, Section 71, and with Section 5 of an ordinance adopted by the City of New Bedford, January 23, 1925, the Planning Board respectfully submits the following report of its doings and expenses for the year 1935:

The Board held eight meetings during the year 1935, five of which were for the purpose of hearings on petitions for changes of zone, as now required by Chapter 269 of the Acts of 1933.

Eighteen petitions for changes of the zoning map were considered, only nine of which the Board recommended. As usual, all of these petitions were requests for a lower grade of classification.

The following is a table of zone changes applied for, with the action taken upon the same:

Allen St., S.S., e. of Bonney St., from Res. B to Business	X L
County St., S.W. Cor. Arnold, from Res. A to Res. B, C, or Business	X L
Kempton St., Watson to e. line of Silk Mill, from Business and Res. B to Industrial A	X L
County and Sixth, from Res. B to Business	R A
Allen St., No. 141, from Res. B to Business	X L
Kempton St., Watson to e. line of Silk Mill, from Business and Res. B to Business	R A

Allen St., 2nd lot W. of Briggs Ct., N. side, from Res. A and Business to Business	R A
Ashley Blvd., N.W. cor. Nash Rd., from Res. C to Business	R A
Kempton St. (triangle), from Res. A and Business to Industrial A	X L
Hillman and Liberty, from Res. B to Business	X L
Shore St., bet. Grit and Brock Ave., from Res. C to Business	R A
Bedford and Waverly, S.E. Cor., from Res. A and B to Res. C	R L
Hillman and Liberty, from Res. B to Business	X L
Smith St., No. 147, from Residence B to Business	R A
Whitman and Diman, from Res. C to Business	R A
Victoria St., N.S., from Res. B to Business	X L
So. Second St., E. side, bet. Grinnell and South, from Business to Industrial A	X L
Kempton St., (triangle) from Res. A and Business to Business	R

Nine changes recommended; nine not recommended.

R—Recommended by Planning Board.
X—Not recommended by Planning Board.
A—Granted by City Council.
L—Leave to withdraw by City Council.

At the present time the total frontage of the various classifications of zoning districts in this city is as follows:

Districts	Frontage				
	Jan. 1, 1929	Jan. 1, 1936	% 1929	% 1936	% of change
Residence "A"	358,462	355,522	16.91	16.77	—0.14
Residence "B"	812,367	808,172	38.33	38.13	—0.20
Residence "C"	215,150	211,860	10.15	10.00	—0.15
Business	487,605	496,074	23.00	23.40	+0.40
Industrial "A"	81,995	83,951	3.87	3.96	+0.09
Industrial "B"	163,991	163,991	7.74	7.74	0.00

Thus it will be seen that 496,074 feet of street frontage, mostly in the portions of the city already developed, are available for use for retail stores, etc.

The present zoning would provide for 24,804 stores of 20-foot front each, or one store for each five of our population of about 112,000, or one store for each family.

It seems strange that with the exceedingly large frontage already zoned for business that there should be a demand for still more. This is undoubtedly due to long stretches of streets such as Acushnet Avenue, Ashley Boulevard, etc., where the actual use of most of the land today is residential with some scattered sections of Business. The owners of practically all of the land feel that they are discriminated against if they are refused a business use of their land, if so desired. There are, however, several sections of fine residences on such business streets where, if the owner of a property should attempt to avail himself of the privileges pertaining to a business classification, petitions for a change to a residence classification would probably result.

Another source of petitions for lower classification is from owners of property in residence districts who cannot find employment and seek to earn a living by a small gas station, a store in a basement, or light manufacturing or sales in their homes. Also owners of large residences which have come into disuse for their original purpose and are hard to dispose of, desire to convert them into undertaking establishments or apartment houses.

These petitions are often to allow the placing of a store in the front of a house or between two existing dwellings and aside from being unnecessary, tend to destroy the desirability and value of surrounding property for residential purposes.

All these things usually require illegal spot zoning and are contrary to the intent of the purpose of zoning which is to provide homogeneous districts, and can only be viewed from the standpoint of pity for the owner.

There were four applications for the erection of billboards during this year all of which were approved. There were no applications for billboards in residence districts.

The expenditures of the Board for the fiscal year ending December 31, 1935:

Appropriation		$100.00
Publications	$ 7.40	
Annual Report	20.00	
Dues—Massachusetts Federation	15.00	
Dues—National Conference on City Planning	5.00	
Traveling expenses	10.85	
Printing and Stationery	8.00	
Total expenditures		66.25
Unexpended balance		$ 33.75

Respectfully submitted,

CHAS. S. ASHLEY, Mayor,
Chairman.
OSCAR D. KELLEHER, Alderman.
WILLIAM MARTIN, Councilman.
WILLIAM P. HAMMERSLEY,
Superintendent of Streets.
JOSEPH R. GLENNON,
Member of Board of Health.
CHARLES N. SERPA,
Member of Park Board.
GEORGE H. NYE, City Engineer,
Secretary.

BOARD OF APPEALS REPORT

City of New Bedford,

January 1, 1936.

To the City Council of the City of New Bedford.

Gentlemen:

In compliance with section 155 of the building regulations, the Board of Appeals respectfully submits the following report of its doings and expenses for the year 1935:

Meetings and public hearings have been held regularly on the first and third Wednesdays of each month, except in cases when there were no petitions to be acted upon. Twenty cases have been considered and acted upon as follows:

3 appeals for variances granted,
3 appeals for variances granted with conditions,
8 appeals for variances dismissed,
2 consents for alteration to non-conforming buildings granted,
2 consents for alteration to non-conforming buildings granted with conditions,
1 consent for alteration to non-conforming building refused,
1 appeal for consent and variance refused.

Five of the twenty petitions were for garages.

Seventy-three cases were considered in 1926, 95 cases in 1927, 49 cases in 1928, 48 cases in 1929, 27 cases in 1930, 30 cases in 1931, 19 cases in 1932, 12 cases in 1933, 18 cases in 1934, and 20 cases in 1935, making a total of 391 cases that have been acted upon by the

Board of Appeals in its ten years of existence. No decision has been appealed to the court.

In consideration of cases we have received the wholehearted and helpful coöperation of both the building and fire inspection departments.

The appointment of assocate members to act in the absence of regular members has greatly facilitated the work of the Board.

Mr. Ulric E. Collette and Mr. Harold W. Connolly have acted as associate members of the Board during the year.

The expenses of the Board for the month of December, 1934, were as follows:

Special appropriation		$50.00
Clerical work	$25.36	
Advertising	4.80	
Total expenses		30.16
Balance		$19.84

The expenses for the fiscal year ending December 31, 1935, were as follows:

Appropriation		$450.00
Clerical work	$305.28	
Advertising, postage, printing and stationery	101.70	
Total expenses		406.98
Balance		$ 43.02

Respectfully submitted,

WILLIAM RITCHIE, Chairman.
JAMES F. COLLINS,
LESTER S. CORNELL,
GEORGE T. SCHULER,
NAT C. SMITH.

REPORT OF THE POLICEWOMAN

Herewith I have the honor to transmit my report as Policewoman for the year ending December 31, 1935:

Investigations	402
Conferences	369
Accompanying girls for physical examinations	40
Investigations for Girls' Parole Board—State Division	12
Lost children cared for	10
Needy cases investigated for this department	10
Accompanying girls to state clinics	25
Accompanying girls to state institutions:	
Industrial School for Girls at Lancaster	4
Reformatory for Women at Framingham	6
State Hospital at Taunton	5

I have attended sessions of the Juvenile Court and had the required mental and physical tests made before Court action.

I would express my appreciation for the courteous coöperation always shown by the members of the Department, officials of many other municipal departments, the Third District Court of Bristol County, and the representatives of the several social agencies.

Respectfully submitted,
MYRTLE E. CODY,
Policewoman.

REPORT OF THE IDENTIFICATION BUREAU

The following is a report of the Bureau of Identification for the year ending December 31, 1935:

Total number of finger print record cards on file	11,752
Finger prints taken of persons arrested	235
Finger print record cards received from other departments	193
Finger print records furnished other departments	62
Identification of criminals having record, other than local	47
Identification of criminals having previous local record	103
Cases investigated	54
Cases investigated for the following towns:	
Dartmouth, Mass.	6
Fairhaven, Mass.	4
Finger prints taken of veterans applying for bonus	5
Finger prints taken of veterans applying for duplicate discharge	6
Finger prints taken of persons applying for Government positions in which finger prints are required	1

During the year new equipment has been added, a 4-5 camera for outside work, a new mugging camera for taking front and side view of prisoners, a photo enlarger and a section of drawers for the filing of pictures and records according to the mode of operating.

Three bodies were fingerprinted during the year and resulted in one of the body's identification as we had duplicate prints on file. The other two bodies were identified by relatives we having no duplicate prints on file.

Respectfully submitted,
RAYMOND CHASE,
Deputy **Chief.**

CONSOLIDATED REPORT OF RADIO CAR SERVICE FOR YEAR 1935

The population of the city (census of 1910) was	96,652
The population of the city (census of 1915) was	109,462
The population of the city (census of 1920) was	121,217
The population of the city (census of 1925) was	119,539
The population of the city (census of 1930) was	112,804
The population of the city (census of 1935) was	110,022
Valuation of the taxable property (1935) was	$117,715,425.00
Schoolhouses and lots	7,877,000.00
Other school property	565,472.12

APPROPRIATION

Rate of taxation (per $1,000.00)	$39.20
Amount for general school purposes not including new buildings (13 month year)	$1,405,350.00

SCHOOL CENSUS

Number of children between five and sixteen years of age, and illiterates (not having completed Grade 6A) between sixteen and twenty-one years of age, reported by the Attendance Department in accordance with the census record taken October 1, 1935:

Between 5 and 7 years	2,947
Between 7 and 14 years	14,047
Between 14 and 16 years	4,428
Between 16 and 21 years	352

SCHOOL ORGANIZATION, SEPTEMBER 1, 1935

High School	1
Junior High Schools	2
Grammar Schools	6
Mixed Schools—Grammar, Primary and Ungraded	9
Primary Schools	16
Suburban Schools	1
Continuation Schools	3
Fresh Air Classes	2
Hospital Classes	2
Conservation of Eyesight Classes	2
Class for the Deaf	1
Cooking Rooms	1
Manual Training Rooms	1
Special Classes for Mentally Retarded	7

Workshop Classes	4

SCHOOL BUILDINGS, SEPTEMBER 1, 1935

Administration building	1
Permanent schoolhouses	37
Portable schoolhouses	16
Frame buildings	2
Unoccupied	1

PUBLIC SCHOOLS

	1935	1934		
Enrollment of pupils	18,059	18,139	decrease	80*
Average membership	16,985	17,115	decrease	130
Average daily attendance	15,946	15,980	decrease	34
Aggregate attendance	3,013,438	2,887,192	increase	126,246

PRIVATE AND PAROCHIAL SCHOOLS

	1935	1934		
Enrollment of pupils	5,401	5,687	decrease	286*
Average membership	5,074	4,534	increase	540
Average daily attendance	5,101	4,277	increase	824
Aggregate attendance	1,393,162	768,069	increase	625,093

*Not including pupils enrolled elsewhere in the State during the school year.

PUBLIC, PRIVATE AND PAROCHIAL SCHOOLS

	1935	1934		
Enrollment of pupils	23,460	23,826	decrease	366*
Average membership	22,059	21,649	increase	410
Average daily attendance	21,047	20,257	increase	790
Aggregate attendance	4,406,600	3,655,261	increase	751,339

*Not including pupils enrolled elsewhere in the State during the school year.

Rates of tuition for non-resident pupils for school year, beginning September 4, 1935, same to be paid quarterly in advance:

High School	$150.00
Junior High Schools	125.00
Elementary Schools	90.00

The cost of instruction per scholar is based on the average number belonging and the total amount expended for the maintenance of each department, not including the expenditures from the Sylvia Ann Howland, Paisler or Bourne Prize Funds.

(13 month year)	
High School	$89.03+
Junior High Schools	78.57+
Elementary Schools	61.72+
Day School	68.03+

The average cost per pupil in the different departments of the schools, for text books and supplies, has been as follows:

(13 month year)	
High School	$3.22+
Junior High Schools	2.28+
Elementary Schools	1.42+
Average for Day Schools	1.80+

DEPARTMENT OF PUBLIC SCHOOLS

Report of Superintendent

To the Honorable School Committee:

Miss Sumner and Gentlemen:

I have the honor to submit the seventy-fifth annual report of the Superintendent of Schools of this City.

The public schools were originally organized to promote the general welfare through education in order that democracy might be established and progress.

Education is the process of so developing the powers of all the children of all the people that each may make the most of the best he has in him and exemplify that best in clean living and good citizenship thus leading to a useful, happy and contented life.

New Bedford has always been in the front rank in meeting this obligation and although the past six years have been critical ones for the American public schools we have met our increased responsibilities with courage and optimism despite our decreased resources.

To inspire children who come to us in ill health because of lack of proper food and clothing is indeed a challenge to our teaching corps. This challenge has been met in a most generous spirit by our staff and no one will ever know of the happiness which has come from the gift of a suit of clothes, a pair of shoes, or a good wholesome meal to both the one who received and the one who gave.

Our supervisors of attendance have been our good allies in all this happy work and we appreciate the many extra hours they have worked to make sure we were not imposed upon.

SENIOR HIGH SCHOOL ADDITION

The outstanding event of the past year was the completion of the addition to the Senior High School and its occupancy in September. The addition contains thirty-two class rooms, four study rooms, a cafeteria seating eight hundred and four, a well equipped kitchen, a teachers' lunch room and the usual offices, storerooms, toilets and rest rooms. For the first time since double sessions were inaugurated in 1922 we have our school together in a one session program. The enrollment for September, over twenty-four hundred, made it necessary to occupy the entire building leaving but little opportunity for future growth.

The law requires all boys and girls under sixteen years of age to attend school unless regularly employed and as very few have been able to obtain work the numbers in our junior and senior high schools have steadily increased. It has been necessary to open seven classes in four elementary school buildings and one more will be added next term.

Many of these pupils coming to us unwillingly have failed in their school work because our courses did not meet their needs or interest them. In February we are offering revised former courses and a new course that we hope will prove attractive, useful and interesting to this new group of pupils. It will be known as the Civic Curriculum and is as follows:—

First Year—9th Grade

English
Social Science
Practical Mathematics
General Science

Second Year—10th Grade

English
World History
Electives:
    Practical Mathematics (advanced)
    Commercial Geography (1st half year)
    Industrial History (2nd half year)
    Biology
    French I

Third Year—11th Grade

English
U. S. History
Health and Sanitation
Electives:
    Bookkeeping
    French II
    Typewriting 5-2½

Fourth Year—12th Grade

English
Problems of Democracy
Practical Chemistry
Electives:
    Practical Physics
    Economics (1st half year)
    Office Practice (2nd half year) 5-2½
    French III

Note: Omitted elective courses may be elected the following year.

FEDERAL AID

For the past three years most of the repairs to school buildings has been done by labor furnished by the Civil Works Administration and the Emergency Relief Administration through federal aid. Our buildings have been painted, many both inside and out, roofs made tight, furniture repaired and refinished and repairs of all kinds made. The Rodman School building has been practically rebuilt outside. The parapet wall at the senior high school has been rebuilt and the roof made tight. These repairs were very much needed and while our buildings are in better condition than they have been for years there is much yet to be done.

Projects have been prepared under the Works Progress Administration for an eight-room addition to the Winslow School building and for a shop and storage plant for the school department. We have to use the attics of various buildings for storage at present and have no adequate facilities for the repair work which constantly confronts us. Such a building would pay for itself in a few years.

In all the Civil Works Administration, Emergency Relief Administration and Works Progress Administration work which has been carried on in connection with this department I have had the courteous coöperation of Messrs. Miner Wilcox, local supervisor; George Gardner, Superintendent of Buildings; Alexander Brown, supervisor of repair projects; Frank C. Brown, clerk of works at the high school, and Joseph W. Parker, federal inspector on the same project. I wish to express my sincere appreciation for the personal interest, many pertinent suggestions and the desire evidenced to see that the department received full value for all money expended. It has been a pleasure to work with each one of them.

Through the nursery schools and the adult classes organized in coöperation with the State Department of Education through federal aid, we have been able to help many little children and tired mothers. Many adults by using their leisure time to advantage have made progress along many lines as shown by the excellent exhibition held in the Public Library last spring. From thirty-five to forty idle teachers have received profitable employment and experience through these agencies.

About one hundred pupils in the Senior and Junior High and the Vocational schools are receiving aid amounting to six dollars per month from the Works Progress Administration Student Aid Program.

CONTINUOUS PROGRESS PROMOTION PLAN

For several years we have been looking for a plan of pupil promotion that would be an improvement on the semi-annual plan of class advancement. Early in 1934 an article in one of our educational journals carried a paragraph on the Rochester experiment which proved to be a new plan of pupil progress and eliminated the sting of failure. We wrote for information and the grade supervisor, Miss Mabel Simpson, sent us a complete explanation of the plan.

This system was later presented to your honorable body and Miss Sweeney was sent to Rochester to study its results. A report of her visit led to the appointment of a committee to study the adaptability of such a plan to New Bedford.

This committee reported on March 29 as follows:

Mr. Allen P. Keith,
Superintendent of Schools.

Dear Sir:

The committee appointed to develop a plan of continuous progress of pupils through the elementary grades in New Bedford presents the following report.

At the time the committee began its work the chairman, Miss Ellen C. Sweeney, had in her possession certain materials obtained through a visit to Rochester, N. Y., and a general understanding of a plan which had been worked out there. These have served as a basis for study.

The committee, in order to have the greatest possible understanding of promotional practices in current use, obtained through the Educational Research Service of the National Education Association a bibliography of "References on Adaptation of Promotion Plan to the Varying Needs of the Individual Pupils."

These references disclosed to the committee that on the part of educators throughout the United States the subject of promotion is receiving much attention. It is recognized that non-promotion with its consequent retardation, is a break in the continuous growth of the pupil. To quote from the 1935 year book of the National Society for the Study of Education:

"Where instruction fails to make provision for individual differences, the common administrative practice is to require pupils who do unsatisfactory work to repeat the grade. This practice of failing pupils is followed because it is believed that repeating the grade will result in growth and eliminate inadequacies in academic abilities. Requiring the pupil to repeat the work of the grade means retardation, and retardation is recognized to be a contributing factor to maladjustments of various kinds, mental, emotional, social, and moral. It is apparent, therefore, that from many points of view the present practice of requiring failing pupils to repeat the work of a grade is an administrative device of very doubtful value, since it fails to insure the optional development of the pupil."

The 1931 year book of the Department of Superintendence sums up the thought of many educators in this statement: "Every school system should be so organized and administered as to provide for the smooth, continuous, and natural progress of every pupil."

Reports also reveal the fact that educators throughout the country are aware of problems which will arise and objections which will need to be overcome in introducing a promotional plan of continuous progress of pupils. The obstacle of tradition will need to be overcome. Teachers will need to adjust themselves to this type of organization.

The present plan of semi-annual promotion went into effect in New Bedford in 1909. At that time it was felt that pupils would profit by the more flexible system of grading. While that plan has rendered valuable service over a period of years, we are convinced now that a change is desirable since any procedure in which children repeat grades should be eliminated. It is imperative that the schools guarantee the child continuous progress in his school work because it is a normal condition.

This committee feels strongly that the time is now ripe for such modification of our present promotional procedure as will more adequately meet the needs of the changed educational ideals. We recognize the evil effect of retardation upon the individual child and feel that our schools should make better provision for the varying degrees of ability in order that each child may experience the encouragement and happiness that come from continuous growth.

This does not imply that all pupils will complete the work of the elementary grades in six years. One or more additional years may be needed for some pupils to move through the requirements of the curriculum, while others may be able to complete the work in less than six years.

Such a promotional plan which provides for individual differences among pupils meets all of the recommendations made in the 1931 year book of the Department of Superintendence.

Therefore the committee recommends: (1) that a promotional plan of continuous pupil progress be tried out in a few schools in New Bedford beginning in September, 1935, (2) that these schools put into practical operation the theories and plans formulated by this committee. In order to do this the committee believes it is essential that the following points be given consideration.

I Course of Study
  1. Adjusted standards of achievement
    (a) More definite attainment for rapid, normal and slow pupils
    (b) Enrichment of curriculum materials

II A more comprehensive testing program
  1. Mental Tests
  2. Achievement Tests
    (a) Standardized
    (b) Local tests

III Analysis of the reading ability of each child in the elementary grades

IV A definite study by teachers for a full understanding and appreciation of the plan

V Study of report cards

VI Classes in *some* sections of the city for over age unadjusted pupils
  1. Primary
  2. Intermediate

Respectfully submitted,

(Signed) HELEN F. MOORE,

ELLEN C. SWEENEY.

This report was referred to a special meeting to be held April 25 that the plan might be studied by the members of the Board.

On that date the full membership of the special committee was present and Miss Sweeney presented the following statement:

"For some time now many of us have felt that there was a definite need for a different promotional procedure in our elementary schools, one that would recognize and provide to a greater extent for the varying degrees of ability among our children. Learning is a continuous process, therefore we felt that the opportunities for advancement in learning should be continuous as far as mass instruction makes it possible. Rochester offered an excellent field for study. We therefore investigated their plan and used it as a basis for our study but no plan can be transferred as a whole from one school system to another. It must be adapted to fit the needs of the system which is to use it. The need for adaptation to make it usable in New Bedford is great because of difference in school organization, personnel and community needs. Out of the Rochester plan will have to grow a promotional plan of continuous pupil progress for *New Bedford.*

"The plan is essentially this: For all children progress will be continuous. The normal child will progress at a normal rate completing the work of the elementary school in six years. This we have always done. The superior child *may* complete the work of the elementary school in five years. In no case does the acceleration cover more than one year in the elementary school. The slower pupil who needs to work at a slower rate, may do six years' work in seven or eight years. A slower rate of progress, rather than repetition, is the main factor in the educational growth of these pupils. The fundamental difference between the proposed plan and the present plan of promotion is that during the elementary experience of the child individual progress goes on at a continuous rate and is not impeded by the artificial boundaries of twenty-week periods. The child will not be asked to attempt a term's work and because of failure be forced to repeat his grade. He will simply carry on his work at a slower rate of progress.

"All children entering the first grade will begin at the same place in the curriculum. Gradually as the abilities of the children within the class become known, individual differences will be recognized. If individual differences are not pronounced the entire group may move forward as a class. In most classes teaching will proceed on a two group basis, as a rapid and normal group or a normal and a slow group.

"During a school year the groups move forward at different rates—some groups doing a year's work, some *more* than a year's work, and some *less* than a year's work. At the beginning of the new school year, with the new teachers, these groups will start their work where they left off in June and begin to move forward from that point. This progress continues until the completion of the sixth grade. All through the six grades adjustments must, of necessity, be taking place and provision made for over-age pupils. It is planned to have pupils enter the seventh grade in September only.

"There have been two unfortunate misunderstandings concerning this promotional plan which should be corrected.

> "First it is *not* true that teacher and pupil remain together for three years. The writer visited five large schools in Rochester and found only one teacher who had been with her class for three years, and that at the request of teacher, parents, and principal.
>
> "Second, the plan does not imply that all pupils will complete the work of the elementary grades in six years. One or more additional years may be needed for some pupils to move through the requirements of the curriculum.

"Any proposed adjustment in present procedures will of necessity be introduced gradually and tested constantly. At every step of the way we shall be learning how to make better provision for continuous progress.

"From the interest shown at the recent Conference of Principals and Supervisors of Elementary Schools on the topic 'How Can We Achieve the Needed Flexibility in the Promotion of Pupils in the Elementary Schools?' it is evident that the consideration of promotional procedures is not confined to New Bedford alone.

"May we even entertain the thought that in the not too distant future some such plan will be on trial in many school systems?"

After long discussion it was voted that the plan be tried in a few schools for one year. Those finally selected were the Jireh Swift, Cedar Grove Street, John B. DeValles, and Henry F. Harrington Memorial Schools. In each a careful study of the relative merits of the scheme as applied to our local conditions is being made and Miss Sweeney has reported "We are beginning to see the light."

GENERAL VOCATIONAL CLASSES

In coöperation with the Trustees of the New Bedford Vocational School a new general vocational course has been established in the Continuation School. This course aims to meet the needs of youth between the ages of fourteen and sixteen who are not interested in the regular school courses but who, through short intensive units, may be given training which will be of definite benefit to them when they leave us. Among these boys and girls we find many whom we can recommend for admission to the regular courses at the Vocational School. Our faculty is constantly developing new units of training, one of the latest of these being the proper cleaning and polishing of automobiles.

NEW FLOORS

During the year many new floors have been laid and various types of floor dressings have been tried out. There is no doubt that the treatment of the whole floor at least once a year and the worn places twice would prove an economical investment, both for the health of the pupils (by keeping dust down) and the cost of replacement. While the first cost may seem large, it will prove a money saver in the course of years. I recommend the gradual treatment of all the floors in our school buildings.

SALARIES

The federal, state and county governments and many of our large cities and towns have restored the cuts in salaries which the depression brought about. Our city, being a cotton manufacturing center and a port of call, has been hard hit by lack of employment and consequently a very large welfare cost has made it impossible as yet to restore, even in part, any of the pay cuts. We hope that affairs may be so adjusted soon that it will be possible for our teachers to receive at least a part of the reduction which they have borne so graciously.

EVENING SCHOOLS

The closing of our evening schools in 1932 due to lack of funds has resulted in serious loss to many of our young people who had depended on this type of instruction to continue their education. It is earnestly desired that New Bedford's financial condition will be such in the near future as to permit the reopening of these classes and thus renew the opportunities which the youth and adults of our city have enjoyed so much in the past.

Everything seems on the surface to be changing rapidly. New demands to meet this changing condition spring up daily. The schools are called upon to do their full share and more to meet such changes. In doing so we must be conservative and study every situation with care lest we travel too fast and down the wrong road. We find in our reading that certain facts, presented as new, were being talked and written about sixty years ago. We must grow but in growing we must know the what and why and the end toward which we are moving.

The school life of our pupils is not preparation, it is life itself and anything which will tend to make that life useful, happy and contented should be most carefully guarded.

To you who have listened patiently to my suggestions and recommendations, to the teachers, pupils, and citizens generally, and to the local press I wish to express my appreciation for the support and encouragement which has made possible any success which the work of the department may have attained.

Respectfully submitted,

ALLEN P. KEITH.

ANNUAL REPORT

OF THE

SUPERINTENDENT OF STREETS

OF THE

CITY OF NEW BEDFORD, MASS.

TO THE

CITY COUNCIL

FOR THE YEAR ENDING DEC. 31, 1935

THE A. E. COFFIN PRESS,—PRINTERS
New Bedford, Mass.
1936

Report of the Superintendent

April 23, 1936

Honorable City Council,
New Bedford, Mass.

Gentlemen:—

I submit herewith the annual report of the Street Department for the month of December 1934 and the fiscal year 1935, which now coincides with the calendar year.

Appropriations and expenditures for the year are shown in the tables and a chart showing the annual appropriations and expenditures for the past 15 years is included.

You will note that the cost of plowing and removing snow and sanding icy streets was in excess of $16,000 more than in the previous year. Much more is now required in the way of sanding and making traveling conditions safe for automobile traffic than formerly.

An additional $4,000 was required to provide traffic signs and lines.

General repairs required about $7,000 more than in the preceding year.

Two new Elgin Motor Pick-Up Sweepers were purchased for replacement of others which had been in service for more than 10 years. Two additional Colecto units were added to the ash and rubbish collection equipment. This division is now entirely motorized, which should result in reduced cost of collection.

Other items are about the same as in previous years.

Federal ERA projects sponsored and supervised by this department are shown in a schedule included herewith.

The work undertaken under Federal PWA grants, Docket No. 3694—Highways and Docket No. 4201—Sewers, was completed and a detailed statement of the cost and amount of work done is included in the report.

Respectfully submitted,

W. P. HAMMERSLEY,

Superintendent.

WPH/M

NEW BEDFORD—1935

GENERAL STATISTICS

Population, Assessors' estimate, 110,022.
Valuation, Assessors' estimate, $117,715,425.
Area, about 19.40 square miles.
Accepted streets, 213.41 miles.

Bridges:
Coggeshall St., ¾ maintained by New Bedford.
Slocum St., ½ maintained by New Bedford.

Pavements:
(Note:—In the following list the area is the total of that kind of pavement on all streets but the length is the length of street where that material is the prinicpal pavement.)

	Length Miles	Area Sq. Yds.
Bitulithic and similar	56.330	1,041,269
Bituminous macadam	84.109	1,372,843
Water bound macadam	32.581	328,589
Granite block	10.728	167,074
Wood block	.000	3,819
Brick	0.064	10,562
Bituminous gravel	4.818	66,424
Cobble	0.039	695
Concrete	0.203	9,953
Unimproved streets (some have been graded)	18.581	
Sidewalks:		
Cement concrete	108.011	458,513
Tar concrete	27.682	116,516
Flagstone	24.932	71,494
Granite curbing	261.584	

SEWERS

189.03 miles of sewers, (including interceptor) cost $5,360,390.77
2309 catch basins
1010 inlets

CITY OF NEW BEDFORD, MASS.

OFFICE OF THE NEW BEDFORD WATER BOARD,

DECEMBER 31, 1935.

To the City Council of the City of New Bedford:

GENTLEMEN:—In compliance with Section 91 of the City Ordinances, the New Bedford Water Board herewith submits its Sixty-sixth annual report.

On account of the change in the fiscal year, making it end December 31st instead of November 30th as formerly, this report covers thirteen months activities, from December 1st, 1934 to December 31st, 1935.

The reports of the Water Registrar and Superintendent for the same period are incorporated with and accompanying it as usual. You are referred to the Water Registrar's report for detailed financial statement and to the Superintendent's report for details of the operations of the department for the period named above.

Mr. William Martin was elected President of the Common Council succeeding Mr. Fred Robinson, and by this election became a member of this Board.

On June 13th, you reelected Mr. James O. Thompson, Jr. a member of this Board for a further term of three years.

ADDITIONAL SUPPLY ACTS 1924

CHAPTER 400

The Horace L. Coombs property containing about forty acres bordering on the northerly end of Pocksha Pond has been purchased for One Thousand Dollars.

The following is a statement of financial transactions on account of the bonds issued under this Act.

Balance, December 1st, 1934		$14,153.98
Horace L. Coombs land	$1,000.00	
Chester E. Weston—title research	7.00	
Recording deed	2.00	1,009.00
Balance, December 31st, 1935		13,144.98

SECOND FORCE MAIN

This force main was completed early in the year and tests showed it to be remarkably tight.

The cost of the completed work was as follows:

Contract—Lock Joint Pipe Co.	$205,690.32
Force account—materials and labor	14,084.81
Inspection	2,416.72
Printing, advertising and miscellaneous	501.16
	$223,693.01
Received from Federal Government	66,717.51
Net Cost to City	$156,975.50

Before being put into service the line was sterilized by the use of chlorine gas, under the supervision of an engineer from the State Department of Public Health.

Both force mains remained in service until about November 1st when the old steel main was emptied for inspection purposes. The entire supply has been pumped through the new main since then.

RECONDITIONING OLD 48-INCH STEEL FORCE MAIN

Part of the balance remaining from the bonds issued for constructing the new force main has been appropriated for the purpose of reconditioning the old steel main.

Plans and specifications were prepared based on thoroughly cleaning the interior of this main and applying a protective coating. The Federal Government has approved this as a P.W.A. project and agreed to pay 45% of the cost.

The specifications covered four methods of recoating; viz—

I — Cement lining ¾″ thick, applied centrifugally.

II — Reinforced cement lining 1¼″ thick, applied by pneumatic gun.

III— Cement lining ¾″ thick, applied by hand or other method.

IV— Bitumastic enamel lining 3/32″, hand brushed.

No bids were received on Alternate I.

Two bids were received on Alternate II, the lowest being at $3.12 per foot; total amount $132,912.

One bid was received on Alternate III at $3.35 per foot or a total of $142,710.00.

One bid was received on Alternate IV at $2.84 per foot or a total of $120,984.00.

This Board has recommended to the P.W.A. administrator the acceptance of the lowest bid on Alternate II and we are now awaiting the action of the P.W.A. authorities.

E. R. A. & W. P. A. PROJECTS

During the year we have had an average of 130 men working on the watershed in conjunction with our regular crew. About 850 acres have been improved by pruning and weeding the pine and spruce plantings.

A swampy area at the northerly end of Pocksha Pond has been ditched and drained, which will improve the quality of water entering the pond from this area as well as improving the general appearance of the section.

The wood cut in this cleaning process is used by the Welfare Department and trash wood too small to be of use is burned.

The two story storage building at the yard, 213 No. Water St., mentioned in our previous report has been completed and is now occupied.

The fifteen stall garage at Quittacas Pumping Station has been completed.

A new roof has been built on the old garage at 213 No. Water St., and the interior of the building has been repainted.

The exterior of the Stand Pipe on Acushnet Ave. near the Freetown line has been painted, the paint being furnished from our appropriation and the labor furnished by the E.R.A.

STAND PIPE

The interior coating of the Stand Pipe was found to be in poor condition. A contract was made with the J. H. Tredennick Co. for cleaning off the old coating and a new lining has been applied by the Wailes Dove-Hermiston Co.

The lower two-thirds which is constantly wet, is coated with their bitumastic enamel and the upper third, which is usually dry, with Hermastic. The total cost was as follows:

Cleaning	$750.72
Recoating	662.70
Total	$1,413.42

NEW BOILER AT QUITTACAS PUMPING STATION

Following the advice of the Hartford Steam Boiler Insurance and Inspection Company, as mentioned in the Superintendent's report for last year, a new 200 H. P. boiler has been installed at Quittacas Pumping Station.

After preparing specifications and advertising, a contract was awarded the Babcock and Wilcox Company for a 200 H. P. water tube boiler of the serpentine sectional header type. The boiler has been installed and our crew is now making flue and steam pipe connections. It will be ready for service early in the coming year. The cost was as follows:

Contract—Boiler and appurtenances	$11,288.00
Piping flue, etc. by this department	2,555.15
Total	$13,843.15

Within a few years it will probably be necessary to install a duplicate of this boiler, replacing one of the old Scotch Marine boilers installed with the original plant at this station.

The other equipment at this station has continued to operate efficiently with little expense for maintenance.

REGULATIONS FOR SERVICE PIPING AND FIXTURES

On April 5th, regulations were adopted governing the installation of water piping and fixtures. These regulations became effective June 1st. They are designed to eliminate the use of inferior workmanship and materials and to prevent the installation of fixtures which would cause dangerous pollution by siphoning of drainage from toilet bowls and other fixtures to water piping.

Experience in this and other cities has shown the necessity for such regulations.

Mr. James F. Collins acted as inspector under these regulations pending the establishment of an eligible list by Civil Service authorities. As a result of a Civil Service examination, Mr. James F. Murphy was later chosen to fill this position.

The agreement with the Town of Dartmouth for supplying that Town with water has been renewed for a further term of five years on the same terms as heretofore.

Two petitions for extension of main pipes have been granted requiring 821 feet of pipe with the necessary gates, hydrants, etc.

The following abstract from the Water Registrar's report shows in condensed form the financial operations of this department in connection with the maintenance and ordinary extensions for the year. Full details will be found in his report which accompanies this.

First, based on budget system

Budget Appropriation for Dec. 1934		$15,000.00	
Budget Appropriation for 1935		205,000.00	$220,000.00
Service transfers Dec. 1934	$886.32		
Service transfers for 1935	12,572.89		13,459.21
City Council transfer Dec. 26, 1935			4,000.00
			237,459.21

EXPENDITURES

December, 1934	$13,876.31		
Year 1935	208,588.34	222,464.65	
City Council transfer Dec. 6, 1935		10,000.00	232,464.65
			4,994.56
Returned to General Funds Dec. 31, 1934		2,010.01	
Returned to General Funds Dec. 31, 1935		2,984.55	4,994.56

Second, based on receipts and expenditures

RECEIPTS

Receipts from water, meter rentals, demands and shut off charges	$355,156.09	
Misc. receipts	13,698.15	
From Bond account	275,893.01	
		$644,747.25

EXPENDITURES

Management and repairs	$213,737.19	
Interest	60,882.50	
Bonds	99,000.00	
Extensions	8,727.46	
Second Force Main	223,693.01	$606,040.16
Returned to General Funds Dec. 31, 1935		$38,707.09

The total outlay for the construction of these works exclusive of debt, interest, management and repairs account through 1934 was $6,535,350.09

INCREASE

	Payments	Credit	Net	
Chapter 400	$1,009.00		$1,009.00	
Distribution	8,727.46	$4,638.99	4,088.47	
Second Force Main	223,693.01		223,693.01	228,790.48
Outlay to December 31, 1935				$6,764,140.57

RECEIPTS AND EXPENDITURES SINCE 1906

Year	Receipts for Water	Total Receipts	Maintenance Interest and Bonds	Extensions Paid from Regular Receipts	Extensions Paid from Bond Account	Returned to General City Funds	Total Expenditures	Balance 1st of Year

			$2,215,327.05

** Reverts to City Funds.

†13 months

On June 25th, a contract was made by the Clerk of Committees with David Duff & Son for 2,415 tons of Pocahontas coal. The greater part of this is for use at Quittacas Pumping Station.

The following are the principal contracts that have been made during the year on the regular account.

Date 1935	Contractor	Supply	Consideration
May 18	Loughlin Chevrolet Co.	Chevrolet Sedan Master DeLuxe	$627.00 and 1931 Studebaker Sedan
June 6	John G. Nicholson	1600 Creosoted Railroad Ties	$1.16½ per tie
Aug. 31	Babcock & Wilcox Co.	Water Tube boiler	$11,288.00
Oct. 21	J. H. Tredennick Inc.	Cleaning standpipe	$428.00

In closing we desire to express to you our appreciation of your cooperation during the year.

Respectfully submitted,

CHAS. S. ASHLEY,
WILLIAM MARTIN,
ELTON S. WILDE,
THOMAS F. GLENNON,
JAMES O. THOMPSON, JR.,

New Bedford Water Board.

REPORT OF THE WATER REGISTRAR

City of New Bedford,
Water Registrar's Office,
January 1, 1935

To the New Bedford Water Board:

Gentlemen:—

I herewith present to you a detailed statement of the receipts and expenditures of the Water Works Department for the year ending December 31, 1935. This report is for thirteen months caused by a change in the Fiscal year from December 1, to January 1.

The report is based on budget vs. expenditures and also on receipts and expenditures as previously.

An examination of the report based on receipts and expenditures shows the receipts exceed the expenditures including interest and bonds by $38,707.09 which reverts to General City Funds.

First, Based on Budget System

RECEIPTS

Budget Appropriation for Dec. 1934		$15,000.00	
Budget Appropriation for 1935		205,000.00	$220,000.00
Service transfers Dec. 1934	$886.32		
Service transfers for 1935	12,572.89		13,459.21
City Council transfer Dec. 26, 1935			4,000.00
			$237,459.21

EXPENDITURES

December 1934	13,876.31		
Year 1935	208,588.34	222,464.65	
City Council transfer Dec. 6, 1935		10,000.00	232,464.65
			4,994.56
Returned to General Funds Dec. 31, 1934		2,010.01	
Returned to General Funds Dec. 31, 1935		2,984.55	4,994.56

Second, Based on Receipts and Expenditures as Previously

RECEIPTS

Rates:			
Under 10,000 cu. ft. per quarter		$176,346.84	
Over 10,000 cu. ft. and less than 100,000 cu. ft. per quarter		37,650.57	
Over 100,000 and less than 1,000,000 cu. ft. per quarter		83,252.08	
Over 1,000,000 and less than 2,000,000 cu. ft. per quarter		13,581.31	
Over 2,000,000 cu. ft. per quarter		18,523.73	
Estimated and building purposes		241.68	
Total receipts from water			$329,596.21
Meter rentals		24,379.10	
Demands and shut off charges		1,180.78	25,559.88
Total receipts from water, meter rentals, demands and shut off charges			$355,156.09
Miscellaneous receipts:			
For detail see credits under expenditures			13,698.15
			$368,854.24
Receipts from bonds issued for construction		$223,693.01	
Receipts from bonds Second Force Main for interest and bonds		52,200.00	275,893.01
Total receipts			$644,747.25
Expenditures:			
Bills	$75,282.79		
Pay rolls	147,181.86	222,464.65	
Second Force Main		223,693.01	
Interest (paid to date)	60,882.50		
Bonds	99,000.00	159,882.50	606,040.16
Balance Dec. 31, 1935 reverting to General Funds			$38,707.09

EXPENDITURES IN DETAIL

Maintenance:

	Payments	Credits	Net
Supt. Dept. salaries including general foreman	$15,614.61		15,614.61
Water Registrar's Dept. salaries	23,603.26		23,603.26
Printing, stationery, advertising, postage and other supplies	3,343.06		3,343.06
Traveling, telephones and telegrams	1,599.28	$20.00	1,579.28
Liens	132.00	113.80	18.20
	$44,292.21	133.80	44,158.41

Quittacas Pumping Station:			
Salaries and labor	21,557.18		21,557.18
Fuel	15,387.84		15,387.84
Oil, waste, packing and lighting	1,829.65		1,829.65
Tools and other supplies	1,720.55	1.00	1,719.55
Repairs, steam engines	2,428.30	8.75	2,419.55
Repairs, boilers	240.14		240.14
Repairs, Centrifugal pump and motor	25.72		25.72
Electric current, Centrifugal pump	1,283.70		1,283.70
Other repairs	1,867.11		1,867.11
Buildings and grounds	3,314.84	5.75	3,309.09
Miscellaneous	266.75	25.00	241.75
New boiler	13,843.15		13,843.15
	63,764.93	40.50	63,724.43
Lakeville supply:			
Ponds, including connections, overflow, intakes, etc.	1,974.32		1,974.32
Lands	3,147.33	75.08	3,072.25
Forestry work	16,206.44	1,146.42	15,060.02
Roads, walls and fences	2,437.74	6.50	2,431.24
Patrol	1,261.51		1,261.51
Buildings, other than pumping station	1,477.99	10.00	1,467.99
Railroad	7,574.32		7,574.32
48″ Steel Force Main	876.91		876.91
High Hill reservoir	1,688.37		1,688.37
48″ Cast Iron Force Main	816.50		816.50
	37,461.43	1,238.00	36,223.43
Mains:			
Main pipe	345.66		345.66
Stop gates	1,024.39		1,024.39
Hydrants	973.51	295.04	678.47
Flushing and inspecting	1,583.18		1,583.18
Street Dept. repairing streets	219.54	13.17	206.37
	4,146.28	308.21	3,838.07
Services:			
Repairing and removing	1,243.41	212.30	1,031.11
Renewing and driving stop boxes	921.93		921.93
Cleaning stops, taps and pipe	751.43		751.43
Street Dept. repairing streets	861.74	42.78	818.96
Water cart and car sprinkler hydrants	13.75		13.75
Sealing fixtures and inspecting check valves	470.49	638.14	— 167.65
	4,262.75	893.22	3,369.53
Meters	14,814.09	4,221.00	10,593.09

General Maintenance:			
Horses, wagons and autos	16,123.05	146.43	15,976.62
Labor at workshop	8,906.82		8,906.82
Materials at workshop	588.29		588.29
Tools	3,630.71	818.00	2,812.71
Fuel, lighting and power at workshop	1,306.52		1,306.52
Repairs, workshop, buildings and pipeyard	2,251.81		2,251.81
Stand pipe	1,555.09		1,555.09
Miscellaneous	1,351.55	355.39	996.16
	35,713.84	1,319.82	34,394.02
Acushnet Supply:			
Storing reservoir and surroundings and Dry Swamp Ditch	932.90		932.90
Receiving reservoir, Pump well and Purchase St. Station	2,025.38	34.00	1,991.38
Mt. Pleasant Distributing reservoir	83.80		83.80
	3,042.08	34.00	3,008.08
Industrial accident account	1,428.19		1,428.19
Taxes and Insurance	4,811.39	870.61	3,940.78
Water Debt: (not included in budget)			
Interest	60,882.50	22,200.00	38,682.50
Bonds	99,000.00	30,000.00	69,000.00
	159,882.50	52,200.00	107,682.50

EXTENSIONS

Mains:	Payments	Credits	Net
Main pipe and special castings	1,264.75	1,184.70	80.05
Stop gates	324.46	1,203.39	— 878.93
Hydrants	257.49		257.49
Lead and gasket	101.00	312.25	— 211.25
All other supplies	246.66	34.55	212.11
Labor	1,499.74		1,499.74
Street Dept. repairing streets	33.39		33.39
	3,727.49	2,734.89	922.60
Services:			
Pipe	339.29	415.89	— 76.60
Taps and stops	480.13	132.01	348.12
All other supplies	166.75	223.39	— 56.64
Labor	638.63	560.07	78.56
Plumbing	10.43		10.43
St. Dept. repairing streets	140.47	162.67	— 22.20
	1,775.70	1,494.03	281.67

Meters:			
Cost of meters	145.00	236.20	— 91.20
Cost of testing and setting	112.00		112.00
	257.00	236.20	20.80
Mill piping	127.05	173.87	— 46.82
Second Force Main	97.63		97.63
New Garage at Pumping station	1,796.19		1,796.19
New Garage at Shop	28.36		28.36
New Storage building at Shop	918.04		918.04

REPORT OF THE SUPERINTENDENT

New Bedford Water Works,
Superintendent's Office,
January 2, 1936.

To the New Bedford Water Board:

Gentlemen:—The Sixty-sixth Annual Report of your Superintendent is herewith respectfully submitted.

Due to the change making the fiscal year end December 31st, this report covers the 13 months from December 1st, 1934 to December 31st, 1935.

Through the courtesy of Mr. Arthur D. Weston, Chief Engineer of the State Department of Public Health, the results of monthly analyses of water from the Lakeville Ponds, our source of supply, are incorporated in this report. These show that the quality of the water continues to be excellent.

Copies of the rainfall records at Little Quittacas Pumping Station in Rochester and at the Old Storing Reservoir at Long Plain are appended; also the usual tables showing in detail the work of the department for the past thirteen months.

The rainfall for the thirteen months covered by this report as recorded at Quittacas Pumping Station, full details of which appear in Table E was 46.84 inches.

POND ELEVATIONS

The water level in Pocksha Pond has varied from 48.73 on Oct. 30, 1935 to 51.31 on April 17, 1935. The present elevation is 49.42. The average elevation for the year was 49.83.

The elevation of Great Quittacas Pond has varied from

48.65 on October 23, 1935 to 51.38 on April 17, 1935. The present elevation is 49.46. The average elevation for the year was 49.82.

The elevation of Little Quittacas Pond, which is controlled by gates in the connection with Great Quittacas Pond, has varied from 48.02 on January 16, 1935 to 47.31 on July 10, 1935. The present elevation is 47.73. The average elevation for the year was 47.72.

Water was drawn from Pocksha Pond into Great Quittacas Pond from January 1, 1935 through January 16, 1935 and from July 3, 1935 through November 13, 1935. During these periods the Venturi meter recorded a draft of 701,610,000 gallons. For the remainder of the year water was wasted from Great Quittacas Pond into Pocksha Pond. 1,180,101,000 gallons was wasted through the Venturi Meter, and an additional indeterminate amount was wasted into Pocksha Pond over the wasteway dam during some periods when Great Quittacas Pond was higher than Pocksha Pond.

FORESTRY

We have purchased from the State Forestry Department, 15,000 three year red pine transplants and from the Franklin Forestry Co. 2,000 Hemlock transplants. The hemlocks were planted in the swampy area and the red pines in the higher area of the water shed.

The usual pruning and weeding operations have been carried on. We have had the assistance of about 130 men under the Emergency Relief Act three days a week which has improved progress in this work.

QUITTACAS PUMPING STATION

The pumping engines at this station continue to operate efficiently with very little expense for repair.

The new Babcock & Wilcox boiler has been installed and will be put into service early in the coming year.

Before many years it will be necessary to install another boiler as the two original ones have about reached the limit of their usefulness, and it is essential that we have duplicate units in order to insure a continuity of service. It will not be safe to be entirely dependent on a single boiler.

RAILROAD

The railroad connecting Quittacas Pumping Station with the main line of the N. Y., N. H. & H. R. R. at Braley's has been kept in repair by replacing defective ties by creosoted ones and by regrading where necessary.

FORCE MAIN

The new force main was completed early in the year under contract with the Lock Joint Pipe Co. The acceptance test proved it to be remarkably tight.

Both mains were in service until early in November when the old steel main was emptied for inspection purposes. Leak tests made just before emptying showed it to be very tight.

HIGH HILL RESERVOIR

This reservoir remains in good condition and no repairs to it have been necessary. The alterations to the fence made necessary by the connections to the new force main have been completed and the fence painted where necessary.

STANDPIPE

The stand pipe has been painted on the outside by E.R.A. workers, the material being furnished by this department. On the inside the coating which was applied in 1928 was in poor condition. This has been cleaned by sandblasting and a coat of Bitumastic Enamel applied. This should last many years.

OLD ACUSHNET SYSTEM

The keeper's house at the old Storing Reservoir has been wired for electricity. The roof of the boiler house at Purchase St. Station has been extensively repaired. No other changes have been made in this system.

DISTRIBUTION SYSTEM

The demand for extension of main pipes and additional services has continued very small.

Eighteen hundred fifty-six feet of main pipe with the necessary gates, hydrants, etc. have been installed. See details in Tables L, N, and R.

Thirteen hydrants have been broken off by skidding or carelessly driven automobiles. The cost of repairing them was $663.95 of which $244.61 was collected from the owners or their insurance companies.

LEAKS

There have been eighteen leaks on main pipe during the year as herewith shown:*

Date	Size	Location	Cause	Amount
1934				
Dec. 8	4″	Jean St. N. of Coggeshall St.	Broken off	$66.25
15	6″	Coffin Ave., abt. 200 ft. W. of Front St.	Joint started	11.90
1935				
Jan. 5	6″	Hickory St., abt. 30 ft. W. of Dartmouth	Joint started	15.40
12	8″	20 ft. Way E. of Prospect St.	Pipe burst	34.28
26	6″	Beech St. at Kempton St.	Pipe burst	51.80
May 4	36″	Acushnet Ave., N. of Nye Lane	Joint started	11.50
June 15	48″	Middleboro Rd. near Ashley Bd.	Joint started	13.44
22	6″	Opp. No. 32 Gosnold St.	Joint started	12.66
July 6	6″	Opp. No. 20 Circuit St.	Joint started	8.87
13	10″	Phillips Rd., N. of Church St.	Joint started	13.13
Aug. 3	8″	Bridge pipe, at N.Y.,N.H.&H.R.R.	Joint started	7.67
24	8″	Kempton St. at Tremont St.	Joint started	15.55
Sept. 21	6″	So. Front St., at Delano St.	Joint started	16.04
Oct. 26	48″	48″ C. I. Force Main, W. of Beaver Dam	Joint started	65.60
Dec. 14	6″	Nye St. opp. No. 132	Main broken	32.02
28	6″	Collins St. opp. No. 10	Joint leaking	10.21
28	6″	Blackmer St. abt. 150′ W. of So. Second St.	Joint leaking	12.45
31	6″	Conduit St. S. of Tarkiln Hl. Rd.	Broken off	52.30

---

* Thirteen months.

One hundred fifty-three feet of small size distribution pipe (less than 4″) have been laid and none removed. The total length now in use is 7,822 ft.

Eight new stop gates have been set and two of those previously set have been removed. The total number now in use is 2,925.

Two small size gates have been set and two of those previously set have been removed. The total number now in use is 81.

No waste gates have been set or removed. The total number now in use is 207.

One air tap has been set and none removed. The total number now in use is 217.

Five private stop gates have been set and two of those previously set have been removed. The total number now in use is 669.

Five hydrants have been set and two of those previously set have been removed. The total number now in use is 1,902.

Three water cart hydrants have been removed. The total number now in use is 31.

The total number of sprinkler car hydrants now in use is 8.

Twenty-two service pipes have been laid and six of those previously laid have been removed. The total number now in use is 19,382. Of this number two hundred fifty-six are unmetered fire services, seventeen thousand, three hundred thirty-four are metered and the balance one thousand seven hundred ninety-two are not in use.

Five hundred and twenty taps have been cleaned as follows:

Rust 422; trouble inside 98.

Two thousand four hundred fifty-eight meters have been removed for repairs and two thousand three hundred twenty-nine have been reset. Also 34 new meters have been set for the year making a total of ninety-five meters to be deducted. The total number now in use is 17,334.

CONSUMPTION OF WATER

The consumption of water for thirteen months has been as follows:

Month	Monthly Consumption				Daily Average Consumption
	New Bedford	Dartmouth	Acushnet	Total	
	Gallons	Gallons	Gallons	Gallons	Gallons
1934					
December	280,510,790	6,459,000	2,157,750	289,127,540	9,326,695
1935					
January	276,598,550	7,580,250	2,686,500	286,865,300	9,253,719
February	250,427,260	5,058,750	2,723,250	258,209,260	9,221,759
March	269,608,040	5,927,250	2,966,250	278,501,540	8,983,921
April	264,240,870	7,093,500	1,920,750	273,255,120	9,108,504
May	267,579,640	7,569,000	2,763,000	277,911,640	8,964,891
June	269,019,290	8,207,250	3,238,500	280,465,040	9,348,834
July	321,230,390	11,169,750	2,655,750	335,055,890	10,808,254
August	313,708,610	12,154,500	2,953,500	328,816,610	10,606,987
September	276,525,580	8,439,750	2,457,750	287,423,080	9,580,769
October	282,847,230	7,920,000	3,062,250	293,829,480	9,478,370
November	258,355,630	6,216,000	2,066,250	266,637,880	8,887,929
December	275,996,060	6,975,750	1,104,750	284,076,560	9,163,760
Totals	3,606,647,940	100,770,750	32,756,250	3,740,174,940	
Averages				287,705,764	9,444,886

Maximum daily consumption—December 18th, 1934......13,824,220 gallons

Minimum daily consumption—November 17th, 1935...... 5,458,880 gallons

Average daily consumption—6 A. M. to 6 P. M. .... 5,717,949 gallons

Average night consumption—6 P. M. to 6 A. M. .... 3,726,936 gallons

Amount of water consumed shown on above table includes the supplying of about 52.09 miles of distribution pipes located in the adjoining towns of Dartmouth and Acushnet. Dartmouth supplies 7225 consumers of which 295 are summer residents through 1445 taps. Acushnet supplies 3470 consumers through 637 taps.

COMPARISON OF THE CONSUMPTION OF THE YEAR 1935 WITH THE RECORD OF THE 54 PREVIOUS YEARS.

Year	Estimated Population	Estimated number of consumers	Number of taps	Total number of gallons consumed	Average daily consumption	Gallons per day to each inhabitant	Gallons per day to each consumer	Gallons per day to each tap	Number of meters

*Includes population supplied in towns of Dartmouth and Acushnet; 2,082 taps, 10,695 consumers.

‡This consumption is for eleven months.

CONSUMPTION

The average daily consumption increased 111,276 gallons, or 1 2/10%.

Based on the period from July 1, 1934 to July 1, 1935, which is the time all meter readings are available, meters accounted for 82 6/10% of all water pumped. Slippage of meters, leakage, water wasted by broken hydrants, flushing mains, used for fires, replacing evaporation in Mt. Pleasant Reservoir and testing account for the balance.

The following table shows the number of accounts, registration and income in the various steps of the sliding scale of water rates.

DATA ON METERED CONSUMPTION AND REVENUE

July 1, 1934 Through June 30, 1935

(All Active Service Except Fire Supplies Metered)

	No. of Accts.	Number of Gallons			Receipts for Metered Water		
		Total	Per Account	Per day Per Acct.	Total	Per Account	Per 1,000 gallons
Using less than minimum rate viz.— 33,333 1/3 gals. per year	4,361	88,896,750	20,384	56	$21,492.42	$4.93	$.242
Using over minimum rate but less than 75,000 gals. per quarter	12,298	1,003,698,750	81,615	224	151,175.21	12.29	.15
Using between 75,000 and 750,000 gals. per quarter	394	256,929,750	652,106	1,786	35,322.63	89.65	.137
Using between 750,000 and 7,500,000 gals. per quarter	91	705,412,500	7,751,786	21,238	77,434.44	850.93	.110
Using between 7,500,000 and 15,000,000 gals. per quarter	4	147,894,000	36,973,500	101,297	13,516.43	3,379.10	.093
Using over 15,000,000 gals. per quarter	3	595,617,000	198,539,000	543,942	19,656.56	6,552.19	.033
Totals and Averages	17,151	2,798,448,750	163,166	447	318,597.69	18.58	.114

Respectfully submitted,

STEPHEN H. TAYLOR,

Superintendent.

Total fall for the year 49.55 inches.

TABLE H

STATEMENT OF WORK DONE BY LEAVITT ENGINE A FOR THE YEAR ENDING DECEMBER 31, 1935.

Diameter steam cylinders 16⅜ and 36 23-63 in.
Diameter pump plungers 13 7-10 and 19⅜ in.
Stroke of Piston Plungers 90 inches.

Average working steam pressure 170 lbs.
Average static head 167.79 ft.

Months		Number of days or parts of days pumping	Total pumping time per month		Total number of strokes per month	Average number of strokes per minute	Fuel: Total fuel used for all purposes including lighting and heating building.	Total number of gallons pumped per month, allowance being made for slip	Number of gallons pumped per pound of coal for total coal	Number of gallons raised 100 ft. per lb. coal for total coal	Average dynamic head against pump in feet: no allowance for friction in suction	Average duty in pounds raised one ft. high per 100 lbs. coal, calculated on total fuel used for all purposes.

SUMMARY OF STATISTICS.

FOR THE YEAR ENDING DECEMBER 31, 1935

IN FORM RECOMMENDED BY THE NEW ENGLAND WATER WORKS ASSOCIATION.

NEW BEDFORD WATER WORKS.

NEW BEDFORD,
BRISTOL COUNTY, MASS.

GENERAL STATISTICS.

Population by census of 1930—112,804.

Date of construction, 1866 to 1869, inclusive. Further supply, 1895 to 1899, inclusive.

By whom owned, City of New Bedford.

Source of supply.—Water was first introduced on Nov. 26, 1869. From that date until July 10, 1899, the supply was taken from a storing reservoir artificially formed by constructing a dam across the valley of the Acushnet River, seven miles north of the centre of the City. This supply was augmented by a connection made in 1886 with Little Quittacas Pond.

Since July 10, 1899, the whole supply has been taken from Great and Little Quittacas Ponds, eleven miles north of the centre of the city.

In 1926, under Legislative Authority to take 11½ million gallons of water per day from Long, Assawompsett and Pocksha Ponds, a connection was made to bring water from Pocksha into Great Quittacas Pond, when needed.

Mode of supply.—Previous to July 10, 1899, the water flowed by gravity from the Acushnet Storing Reservoir (grade 40′ + high water New Bedford Harbor) through a brick conduit 3 feet wide, 4 feet high, 5 6-10 miles long to a receiving reservoir (capacity 3 million gallons; grade 30′) located opposite the Purchase Street Pumping Station. Thence it was pumped into the Mt. Pleasant Distributing Reservoir (capacity 15 million gallons; grade 154′) located 1,879 feet distant, from whence it flowed by gravity into the city's distributing system.

Since July 10, 1899, the entire supply has been pumped from little Quittacas Pond (grade 52′ through a 48 inch steel force main 8¼ miles long) to a distributing reservoir (capacity 67 million gallons; grade 216′) located upon High Hill, in the town of Dartmouth. From this reservoir it flows into the city's distributing system by gravitation through two 36-inch cast iron pipes averaging 4 1-17 miles in length.

It is also possible to pump directly to the city through a 48″ and 36″ main using either reservoir as a balance. This latter connection was completed in 1922.

The first named system is not now in use, but is held in reserve to meet any emergency which might occur.

PUMPING STATISTICS

1. Builders of Pumping Machinery.

Purchase Street Station:	
a. McAlpine engine, built by Quintard Iron Works.	Cap. 5,000,000 gals. per 24 hrs.
b. High duty engine, built by Henry R. Worthington	Cap. 5,000,000 gals. per 24 hrs.
Little Quittacas Station:	
a. b. Leavitt engines in duplicate, built by Dickinson Mfg. Co.	Capacity of the two engines 20,000,000 gallons per 24 hrs.
c. DeLaval electrically operated centrifugal pump, directly connected with a General Electric squirrel cage type I. Form K. 3 phase, 60 cycle, 550 volt, 250 H. P., induction A. C. motor, operating at about 1800 revolutions per minute, built by DeLaval Steam Turbine Co. Current purchased of New Bedford Gas and Edison Light Co.	Capacity about 6,000,000 gals., delivered into High Hill Reservoir in 24 hours.

LITTLE QUITTACAS STATION—Engine A and B.

2. Description of fuel used.
   a. Kind—bituminous.
   b. Brand of coal—New River.
   c. Price of coal per net ton—delivered Little Quittacas Station $6.87.
   d. Percentage of ash—7½%.
   e. Wood, price per cord—none used.
3. Coal consumed for the year—4,425,780 lbs.
4. (Pounds of wood consumed)÷3—equivalent amount of coal —none used.
5. Total equivalent coal consumed for the year=(3)+(4) 4,425,780 lbs.
6. Total pumpage for the year — 3,711,451,260 gallons with allowance for slip.
7. Average static head against which pump works—167.80 feet
8. Average dynamic head against which pump works—178.06 feet.
9a. Number of gallons pumped per pound of equivalent coal (5) 838.
9b. **Number of gallons raised 100 feet per pound of equivalent** coal (5) 1492.
10. Duty$=\frac{\text{gals. pumped (6) x 8.34 lb. x 100 x dynamic head (8)}}{\text{Total fuel consumed (5)}}=124{,}533{,}547$
10b. Cost per million gallons raised into High Hill Reservoir (engine A. and B.)=$16.83.

LITTLE QUITTACAS STATION—Engine C.

11. Total pumping time for the year 174 hrs.—45 mins.
12. Total current used for the year 39,100 K. W. H.
13. Total pumpage for the year, 40,348,980 gallons.
14. Number of gallons pumped per K. W. H. 1031.
15. Number of K. W. H. required to raise one million gallons into High Hill Reservoir 969.
    Cost per K. W. H. varies in accordance with amount consumed.
16. Average cost per K. W. H. $.033.
17. Cost per million gallons raised into High Hill Reservoir, (Engine C. only) $32.45.

Total cost of pumping, figured on pumping station expenses, viz: $63,764.93.

18. Per million gallons pumped $17.01.
19. Per million gallons raised one foot (dynamic)—10 cents.

Cost of pumping figured on total maintenance and interest on bonds, (see financial CC+DD) less credits, viz: $265,560.53.

20. Per million gallons pumped $70.78.
21. Per million gallons raised one foot (dynamic)—40 cents.

Cost of pumping figured on total maintenance, interest on bonds and bond payments (see financial CC+DD+EE) less credits, viz: $212,360.53.

22. Per million gallons pumped $97.16.
23. Per million gallons raised one foot (dynamic)—55 cents.

STATISTICS OF CONSUMPTION OF WATER

1.	Estimated total population at date (New Bedford)	110,022
	Acushnet 3,470, Dartmouth 7,225	*120,717
2.	Estimated population on lines of pipe	*119,917
3.	Estimated population supplied	*119,917

Year July 1, 1934 through June 30, 1935

4.	Total consumption for the year	3,389,224,671
5.	Passed through meters	2,798,448,750
6.	Percentage of consumption metered	82 6/10
7.	Average daily consumption	9,285,547
8.	Gallons per day to each inhabitant	76.9
9.	Gallons per day to each consumer	77
10.	Gallons per day to each tap	429
11.	Average rate received per million gallons metered	113.85
12.	Average rate received per million gallons pumped	$94.03

Year December 1, 1934 through December 31, 1935

13.	Cost of supplying water, per million gallons consumed figured on total maintenance (item CC) less credits	$55.26
14.	Cost of supplying water, per million gallons consumed figured on total maintenance plus interest on bonds CC+DD (less credits)	$71.69
15.	Total cost of supplying water per million gallons consumed figured on total maintenance, plus interest on bonds and bond payments CC+DD+-EE (less credits)	$98.42

*Includes population supplied in the towns of Dartmouth and Acushnet.

STATISTICS RELATING TO DISTRIBUTING SYSTEM

MAINS

1. Kind of pipe cast iron and steel.
2. Sizes, from 4 inch to 48 inch.
3. Extended 1,856 feet during the year.
4. Discontinued 28 feet during year.
5. Total now in use 213.3865 miles.
6. Cost of ordinary maintenance per mile including flushing and inspecting gates and hydrants $17.99.
7. Number of leaks per mile .084.
8. Length of pipes less than 4 inches diam., 1.48136 miles.
9. Number of hydrants added during the year 3.
10. Number of hydrants public (1,902) and private (434) now in use 2,336.
11. Number of stop gates added during year 6.
12. Number of stop gates now in use, 2,925.
13. Number of stop gates smaller than 4 inch, 81.
14. Number of blow offs, 207.
15. Range of pressure on mains, 16 lbs. to 91 lbs.

SERVICES

16. Kind of pipe; lead, cast iron and copper tubing.
17. Sizes, ½ inch to 10 inch.
18. Extended 920½ feet.
19. Discontinued 239 feet.
20. Total now in use, 143.589 miles.
21. Number of service taps added during year:

New Bedford	16
Dartmouth	21
Acushnet, removed	6
Total added	31

22. Number now laid:

New Bedford	19,382
Dartmouth	1,445
Acushnet	637
Total now laid	21,464
Total now in use	17,590

23. Average length of service 39.1 feet.
24. Average cost of service for the year:

(a) Gross	$55.94
(b) Net	0

25. Number of meters to be deducted, 95.
    See Table V.
26. Number now in use, New Bedford only 17,334.
27. Percentage of active services, metered, 98 5/10.
28. Percentage of receipts from metered water (B ÷ C) =100.

FINANCIAL STATISTICS.

Disposition of balance:

O. Net cost of works to date	$6,764,140.57
P. Bonded debt to date	1,334,000.00
Q. Value of sinking fund to date	00.00
R. Net debt to date	6,764,140.57
S. Average rate of interest	4.23+

* These balances have been diverted to General City Funds.

In Board of Aldermen.

February 13, 1936.

Received, placed on file and sent down for concurrence.

RODOLPHUS A. SWAN,
City Clerk.

In Common Council.

February 13, 1936.

Concurred.

RUTH G. HILTON,
Clerk.

Attest:

RODOLPHUS A. SWAN,
City Clerk.

CITY ORDINANCES

AND AMENDMENTS

PASSED BY THE CITY COUNCIL

OF THE

CITY OF NEW BEDFORD

From July 1, 1935 to June 26, 1936

THE A. E. COFFIN PRESS—PRINTERS
NEW BEDFORD, MASS.
1936

CITY ORDINANCE

Public Vehicle Stand

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Thirty-Five

AN ORDINANCE

Designating a taxi stand on the west side of Purchase Street from a point 21 feet north of North Street northerly 40 feet.

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. Section 10 of an Ordinance Relative to Licensing and Regulation of Vehicles used for Transportation of Passengers and Things for Hire, approved September 30, 1929, as amended, is hereby further amended by adding to the list of public stands for Class A vehicles the following paragraph:

PURCHASE STREET, west side, from a point 21 feet north of North Street northerly 40 feet.

SECTION 2. This ordinance shall take effect upon its passage.

IN BOARD OF ALDERMEN,
June 27, 1935.
Passed to be ordained.
OSCAR D. KELLEHER, Acting Mayor.

Sent to Common Council.
RODOLPHUS A. SWAN, City Clerk.

IN COMMON COUNCIL,
June 27, 1935.
Passed to be ordained.
WILLIAM MARTIN, President.
RUTH G. HILTON, Clerk.

Presented to the Mayor for approval July 1, 1935.
RODOLPHUS A. SWAN, City Clerk.

Approved July 1, 1935.
CHARLES S. ASHLEY, Mayor.

Attest:
RODOLPHUS A. SWAN, City Clerk.

CITY ORDINANCE

Regulating Traffic

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Thirty-Five

AN ORDINANCE

Regulating Traffic in the Streets of New Bedford.

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. An Ordinance Regulating Traffic in the Public Streets of New Bedford, approved December 27, 1929, as amended, is hereby further amended as set forth in the following sections.

SECTION 2. Section 23(c) of Article VI is hereby further amended by adding thereto two new paragraphs, viz.:

(58) HILLMAN STREET, north side, from Purchase to Second Streets.

(59) KEMPTON STREET, south side, from a point 138 feet west of Foster Street, westerly 50 feet.

SECTION 3. Section 25 of Article VI is hereby further amended by adding to the list of streets designated for angle parking, another paragraph, viz.:

ROCKDALE AVENUE, south side, from Gull Street westerly 90 feet.

SECTION 4. This ordinance shall take effect upon its passage and approval.

IN BOARD OF ALDERMEN,
June 27, 1935.
Passed to be ordained.
OSCAR D. KELLEHER, Acting Mayor.

Sent to Common Council.
RODOLPHUS A. SWAN, City Clerk.

IN COMMON COUNCIL,
June 27, 1935.
Passed to be ordained.
WILLIAM MARTIN, President.
RUTH G. HILTON, Clerk.

Presented to the Mayor for approval July 1, 1935.
RODOLPHUS A. SWAN, City Clerk.

Approved July 1, 1935.
CHARLES S. ASHLEY, Mayor.

Attest:
RODOLPHUS A. SWAN, City Clerk.

CITY ORDINANCE

Zoning Change No. 50

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Thirty-Six

AN ORDINANCE

Changing Zoning Classification on Diman Street.

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. An Ordinance Zoning the City of New Bedford and establishing height, area and use districts, approved December 24, 1925 and in effect January 16, 1926, as amended, is hereby further amended by changing the classification on the building zone map of property on Diman Street, specifically as follows:

DIMAN STREET, west side, from a point 90.75 feet south of Whitman Street, northerly to the south line of Eugenia Street, to a depth of 47 feet, from Residence C to Business;

DIMAN STREET, east side, from a point 90.75 feet south of Whitman Street to Whitman Street, to a depth of 50 feet, from Residence C to Business;

DIMAN STREET, east side, from Whitman Street to Eugenia Street, to a depth of 100 feet, from Residence C and Business to Business;
all as shown on the plan thereof attached hereto and made a part hereof.

SECTION 2. This ordinance shall take effect upon its passage.
